

Quality Assessment of Biodiesel and Biodiesel Blends Poster P-16

Teresa L Alleman

6 August 2008
DEER Conference
Dearborn, MI

Project Summary

- The quality of biodiesel and biodiesel blends is critical to market penetration and growth
- The 2006 survey showed significant quality problems
- In 2007, a survey of producers found 90% of B100 met the specification
 - Large producers and BQ-9000 producers readily met the specification
- A B20 survey is on-going and a follow-up B100 survey in FY09
