## Los Alamos National Laboratory

### National Environmental Policy Act Document List

Document Type	Document Title	Decision	Document Description
EIS	Site-Wide Environmental Impact Statement for Continued Operation of Los Alamos National Laboratory, May 2008 (2008 LANL SWEIS)	ROD – 2008 ROD 2 - July 2009	Site-wide EIS which evaluates the continued operation of the Los Alamos National Laboratory.
EIS - SA	Supplemental Analysis for the Transport and Storage of High-Activity Sealed Sources from Uruguay and other Locations, 2011	Mod to LANL SWEIS ROD 2, July 2011	This document is a supplemental analysis to the 2008 LANL SWEIS which considers the Off-Site Source Recovery Project (OSRP) and the role of a commercial facility in managing these sources.
EIS-SA	Supplemental Analysis for the Proposed Transport of Low Level Radioactive Waste by Truck and Rail from LANL for Disposal at Energy Solutions at Clive, Utah, October 2009	Approved, October 2009	This document is a supplemental analysis to the 2008 LANL SWEIS which considers the transport of Low Specific Activity and Low Level Waste to Energy Solutions.
EIS	Chemistry and Metallurgy Research Replacement Building Project at LANL, Los Alamos, New Mexico, November 2003	ROD - 2004	EIS which evaluates the continued operation of the Chemistry and Metallurgy Research (CMR) Building at LANL.
SEIS	Final Supplemental Environmental Impact Statement for the Nuclear Facility Portion of the Chemistry and Metallurgy Research Building Replacement Project at Los Alamos, New Mexico, August 2011	ROD - October 2011	This supplemental EIS addresses proposed changes to the structure of the CMRR facility.

## ENVIRONMENTAL MANAGEMENT

SAFETY ♦ PERFORMANCE ♦ CLEANUP ♦ CLOSURE

EIS-SA	Supplement Analysis, EIS for the Chemistry and Metallurgy Research Building Replacement (CMRR) Project at LANL, New Mexico, January 2005	This analysis concluded the proposed modifications were properly assessed in the 2004 CMRR Project EIS.	This supplement analysis was completed to consider if the CMRR Building Project EIS (2004) adequately addressed impacts if the locations of building components were changed.
EIS-SA	Chemistry and Metallurgy Research Building Replacement Project at Los Alamos National Laboratory, January 2015	This analysis concluded no new or supplemental EIS was warranted. January 2015	This supplement analysis considered if the relocation of analytical chemistry and materials characterization capabilities from the CMRR to other existing LANL facilities was evaluated in the CMRR EIS
EIS-SA	Proposed Expansion of Restricted Airspace, September 2004	This analysis concluded that the expansion of airspace would be within the capabilities analyzed in the LANL SWEIS. September 2004.	This supplement analysis considered the effects of modifying airspace above portions of TA-33 and -54 after September 11, 2001.
EIS	Operation of a Biosafety Level 3 Facility at the Los Alamos National Laboratory, NM	Currently draft	This document analyzes the impacts associated with the operation of a biosafety level 3 laboratory at LANL.
EIS	Conveyance and Transfer of Certain Land Tracts Administered by the U.S. Department of Energy and located at LANL, Los Alamos and Santa Fe Counties, New Mexico, October 1999	ROD 1 – March 2000 ROD 2 - July 2002 ROD 3 - August 2005 ROD 4 – January 2012	This EIS analyzes the impacts associated with the conveyance and transfer of lands from DOE at LANL to Los Alamos County and the Secretary of the Interior in trust for the Pueblo of San Ildefonso.
EIS	Dual Axis Radiographic Hydrodynamic Test Facility, August 1995	ROD – October 1995	This EIS analyzes the impacts associated with the Dual Axis Radiographic Hydrodynamic Test (DARHT) facility at LANL.

EA-SA	Final Supplement Analysis for the Environmental Assessment for the Lease of Land for the Development of a Research park at Los Alamos National Laboratory	The analysis concluded that no further documentation is required for the proposed action. October 2014	This supplement analysis considered whether the analysis in a 1997 EA was sufficient to support a lease modification which removed a restriction on the use and storage of radioactive material at a Research Park at LANL.
EA	Electrical Power System Upgrades	FONSI – March 2000	This EA considered the environmental effects from upgrading the electrical power supply system to LANL.
EA	Strategic Computing Complex	FONSI – December 1998	This EA considered the environmental effects to construct and operate the Strategic Computing Complex (SCC) within TA-03 at LANL.
EA	Wildfire Reduction and Forest Health Improvement Program	FONSI – August 2000 FONSI - May 2001 FONSI – October 2004	This EA evaluated environmental impacts from the implementation of a Wildfire Hazard Reduction and Forest Health Improvement Program at LANL.
EA	Construction and Operation of a Biological Safety Level 3 Facility	FONSI – February 2002	This EA evaluated the potential environmental impacts from the construction of two BSL-3 laboratories.
EA	Construction and Operation of a New Office Building and Related Structures within TA-3	FONSI – July 2001	This EA evaluated the potential environmental impacts associated with the construction of a new office facility at TA-3.
EA	Construction and Operation of New Interagency Emergency Operations Center	FONSI – July 2001	This EA evaluated the environmental impacts from the construction and operation of an Interagency Emergency Operations Center at TA-69.
EA	Future Disposition of Certain Cerro Grande Fire Flood and Sediment Retention Structures	FONSI – August 2002	This EA considered the potential environmental impacts from the disposition of certain flood retention structures built in the wake of the Cerro Grande Fire within the boundaries of LANL.

SAFETY ♦ PERFORMANCE ♦ CLEANUP ♦ CLOSURE

EA	Proposed Access Control and Traffic Improvements, August 2002	FONSI – December 2002	This EA considers impacts associated with restricting vehicular access to certain areas for security purposes.
EA	LANL Proposed Trails Management Program (Trails EA), August 2003	FONSI – September 2003	This EA analyzes the permissible uses of trails within LANL for recreational and alternative purposes.
EA	Proposed Corrective Measures at Material Disposal Area H within Technical Area 54 at LANL, Los Alamos, New Mexico, June 2004	FONSI – June 2004	This EA considers the impacts due to the corrective measures to mitigate potential hazards from historical management of radioactive and hazardous wastes at Material Disposal Area H.
EA	Proposed Closure of the Airport Landfills within TA-73, May 2005	FONSI – May 2005	This EA considers the impacts resulting from corrective actions for remediation of landfills on the Airport Landfills Tract prior to conveyance.
EA	Expansion of the Sanitary Effluent Reclamation Facility and Environmental Restoration of Reach S-2 of Sandia Canyon at LANL (SERF EA), August 2010	FONSI - 2010	This EA considered two actions, including the expansion of the SERF and environmental restoration activities within reach S-2 of Sandia Canyon.
