RE: Demonstration of AT&T's U-verse® TV Service

DATE: March 21, 2012

---

This memorandum summarizes a meeting held with Department of Energy officials at AT&T's offices on March 20, 2012 to provide a demonstration of AT&T's U-verse® TV Service. This is provided in compliance with the Department of Energy's guidance on *ex parte* communications (74 Fed. Reg. 52,795 (Oct. 14, 2009)).

Meeting attendees:

DOE: Dan Cohen (GC); Celia Sher (GC); Jeremy Domm (EE)

AT&T: Mary McCarthy; Jeff Dygert; Cecilia Martaus

Sidley Austin: Alan Raul

AT&T representatives gave a high-level overview of the U-verse® network and demonstrated, at the AT&T Innovation Center, the basic functionalities of the TV product. In the context of this demo, there was a brief, passing discussion of the energy usage of the receivers and RG equipment generally relating to stand-by and active mode and operation between those two modes.
