RE: Ex Parte Communication, Docket EERE-2012-BT-STD-0022

To whom it may concern;

On May 2, representatives from PJM Interconnection, L.L.C., the National Rural Electric Cooperatives Association, the Edison Electric Institute and the American Public Power Association held a meeting with members of the Department of Energy's General Counsel and the Office of Energy Efficiency to discuss next steps associated with the referenced docket pertaining to residential electric storage water heaters.

The purpose of this meeting was to explore next steps associated with this rulemaking given the comments received and the public record and to address issues associated with the role of utilities in implementing some of the suggested conditions to any proposed waiver.

Sincerely,

/s/ Craig Glazer
