This memo memorializes the August 29, 2012, meeting between the Association of Home Appliance Manufacturers (AHAM), the Consumer Electronics Association (CEA), CTIA—The Wireless Association, the Power Tool Institute (PTI), and the Department of Energy for inclusion in the public docket. In summary, we discussed the compliance timeline of the battery charger portion of the pending standards rule for battery chargers and external power supplies (Docket No. EERE-2008-BT-STD-0005, RIN No. 1904-AB57), and the fact that DOE has missed its statutory deadline to issue a final rule by more than one year.

The attendees were as follows:

Dr. Kathleen Hogan, DOE
David Catarious, Jr., DOE
Daniel Cohen, DOE
John Cymbalsky, DOE
Kevin Messner, AHAM
Jennifer Cleary, AHAM
Douglas Johnson, CEA
Jackie McCarthy, CTIA
Larry Albert, PTI
