**NEPA clause prepared by OCC [Michael Goldstone 10/1/09]**

You are restricted from taking any action using Federal funds, which would have an adverse effect on the environment or limit the choice of reasonable alternatives prior to DOE providing either a NEPA clearance or a final NEPA decision regarding this project.

If you move forward with activities that are not authorized for Federal funding by the DOE Contracting Officer in advance of the final NEPA decision, you are doing so at risk of not receiving Federal funding and such costs may not be recognized as allowable cost share.

DOE has made a conditional NEPA determination for this award, and funding for certain activities or tasks under this award is contingent upon the final NEPA determination:

**Arrowhead Ranch Water Reclamation Facility UV System Improvement:**

Prohibited actions include: Demolition, construction, removal, installation or disposal activities, until such time that Recipient complies with the Waste Stream and Historic Preservation clauses.

This restriction does not preclude Recipient from: (1) purchasing any necessary equipment or related materials; or (2) conducting assessments, studies and other related administrative work.

Recipient shall ensure the safety and structural integrity of any repair, replacement, construction and/or alteration performed under this project.

**Building Safety Energy Program Enhancements:** DOE has made a final NEPA Determination for this activity, which is categorically excluded from further NEPA review.

**Public Safety/Court Complex Lighting:**

Prohibited actions include: Demolition, construction, removal, installation or disposal activities, until such time that Recipient complies with the Waste Stream and Historic Preservation clauses.

This restriction does not preclude Recipient from: (1) purchasing any necessary equipment or related materials; or (2) conducting assessments, studies and other related administrative work.

**Energy Matters Public Education Program:** DOE has made a final NEPA Determination for this activity, which is categorically excluded from further NEPA review.
