**U.S. DEPARTMENT OF ENERGY
EERE PROJECT MANAGEMENT CENTER
NEPA DETERMINATION**

RECIPIENT: Nevada State Office of Energy

STATE: NV

PROJECT TITLE : Energy Efficiency and Renewable Energy for State Buildings and Schools

Funding Opportunity Announcement Number	Procurement Instrument Number	NEPA Control Number	CID Number
DE-FOA0000052	DE-EE0000084	GFO-10-145-004	0

Based on my review of the information concerning the proposed action, as NEPA Compliance Officer (authorized under DOE Order 451.1A), I have made the following determination:

CX, EA, EIS APPENDIX AND NUMBER:

Description:

- B5.1** Actions to conserve energy, demonstrate potential energy conservation, and promote energy-efficiency that do not increase the indoor concentrations of potentially harmful substances. These actions may involve financial and technical assistance to individuals (such as builders, owners, consultants, designers), organizations (such as utilities), and state and local governments. Covered actions include, but are not limited to: programmed lowering of thermostat settings, placement of timers on hot water heaters, installation of solar hot water systems, installation of efficient lighting, improvements in generator efficiency and appliance efficiency ratings, development of energy-efficient manufacturing or industrial practices, and small-scale conservation and renewable energy research and development and pilot projects. The actions could involve building renovations or new structures in commercial, residential, agricultural, or industrial sectors. These actions do not include rulemakings, standard-settings, or proposed DOE legislation.
- A9** Information gathering (including, but not limited to, literature surveys, inventories, audits), data analysis (including computer modeling), document preparation (such as conceptual design or feasibility studies, analytical energy supply and demand studies), and dissemination (including, but not limited to, document mailings, publication, and distribution; and classroom training and informational programs), but not including site characterization or environmental monitoring.
- A11** Technical advice and planning assistance to international, national, state, and local organizations.

Rational for determination:

The State of Nevada will administer their "Energy Efficiency and Renewable Energy for State Buildings and Schools" program within the bounds of the signed SEP NEPA Template. All projects under this program are bounded in compliance with the uploaded and signed SEP Template for Expedited NEPA review.

Any projects that falls outside the scope of the template are conditioned pending further NEPA review.

The projects that fall under the Statewide Energy Retrofit program comprise technical advice, and actions to conserve energy; therefore they are categorized under CX A9, A11, and B5.1.

NEPA PROVISION

DOE has made a final NEPA determination for this award

Insert the following language in the award:

Note to Specialist :

None Given.

FIELD OFFICE MANAGER DETERMINATION

Field Office Manager review required

NCO REQUESTS THE FIELD OFFICE MANAGER REVIEW FOR THE FOLLOWING REASON:

- Proposed action fits within a categorical exclusion but involves a high profile or controversial issue that warrants Field Office Manager's attention.
- Proposed action falls within an EA or EIS category and therefore requires Field Office Manager's review and determination.

BASED ON MY REVIEW I CONCUR WITH THE DETERMINATION OF THE NCO :

Field Office Manager's Signature: _____ Date: _____

 Field Office Manager

Based on my review of the information concerning the proposed action, as NEPA requires, I have made the following determination:

ALL Technical advice and planning assistance is transmitted, national, state, and local organizations.

EA Information gathering (including, but not limited to, literature survey, inventor, audit, data analysis (including computer modeling), technical assistance (such as conceptual design or feasibility studies, analysis energy audit, and demand studies), and dissemination (including, but not limited to, document mailing, publication, and distribution and classroom training and educational programs), but not including site characterization or environmental monitoring.

BE-1 Actions to conserve energy, demonstrate potential energy conservation, and promote energy efficiency that do not involve the installation of potentially harmful substances. These actions may involve financial and technical assistance to individuals (such as business owners, consultants, designers), organizations (such as utilities), and state and local governments. Covered actions include, but are not limited to, programmatic lighting of commercial settings, placement of timers on hot water heaters, installation of solar hot water systems, installation of efficient lighting equipment in general, energy audit appliance efficiency audits, development of energy-efficient manufacturing or industrial practices, and small-scale conservation and renewable energy research and development and pilot projects. The above do not include building retrofits or new structures in commercial, residential, agricultural, or industrial sectors. These actions do not include retrofits, standard-setting, or proposed DOE legislation.
