U.S. DEPARTMENT OF ENERGY  
EERE PROJECT MANAGEMENT CENTER  
NEPA DETERMINATION

RECIPIENT: Greenville County

STATE: SC

PROJECT TITLE : Interface all DDC Controls ARRA-EECBG

Funding Opportunity Announcement Number	Procurement Instrument Number	NEPA Control Number	CID Number
	DE-EE0000947		0

Based on my review of the information concerning the proposed action, as NEPA Compliance Officer (authorized under DOE Order 451.1A), I have made the following determination:

**CX, EA, EIS APPENDIX AND NUMBER:**

## Description:

- B5.1** Actions to conserve energy, demonstrate potential energy conservation, and promote energy-efficiency that do not increase the indoor concentrations of potentially harmful substances. These actions may involve financial and technical assistance to individuals (such as builders, owners, consultants, designers), organizations (such as utilities), and state and local governments. Covered actions include, but are not limited to: programmed lowering of thermostat settings, placement of timers on hot water heaters, installation of solar hot water systems, installation of efficient lighting, improvements in generator efficiency and appliance efficiency ratings, development of energy-efficient manufacturing or industrial practices, and small-scale conservation and renewable energy research and development and pilot projects. The actions could involve building renovations or new structures in commercial, residential, agricultural, or industrial sectors. These actions do not include rulemakings, standard-settings, or proposed DOE legislation.
- A9** Information gathering (including, but not limited to, literature surveys, inventories, audits), data analysis (including computer modeling), document preparation (such as conceptual design or feasibility studies, analytical energy supply and demand studies), and dissemination (including, but not limited to, document mailings, publication, and distribution; and classroom training and informational programs), but not including site characterization or environmental monitoring.
- A11** Technical advice and planning assistance to international, national, state, and local organizations.

## Rational for determination:

The Project Activity Sheet titled "Professional Audit to Produce a Long-Range Comprehensive Energy Efficiency Plan" submitted by the County of Greenville, South Carolina, involves completing their Energy Conservation Strategy and implementing recommendations of an energy audit conducted on County facilities. The audit recommendation to be implemented includes the upgrade of existing facility control systems to direct digital control (DDC) systems that will interface with each other so that management and operations (to include energy use and conservation) of all County facilities will be improved. All retrofit activities related to the existing control systems will take place inside existing facilities.

The completion of the Greenville County Energy Conservation Strategy, and the purchase and installation of DDC software and hardware in existing County facilities, are categorically excluded from further NEPA review under A9, A11 and B5.1.
