U.S. DEPARTMENT OF ENERGY
EERE PROJECT MANAGEMENT CENTER
NEPA DETERMINATION

RECIPIENT: Ingersoll machine Tools

STATE: IL

PROJECT
TITLE :

Ingersoll Milling Machine Upgrade and equipment for windmill rotor hubs and spar caps.

Funding Opportunity Announcement Number	Procurement Instrument Number	NEPA Control Number	CID Number
DE-FOA-0000052	EE0000119	GFO-10-335	EE119

Based on my review of the information concerning the proposed action, as NEPA Compliance Officer (authorized under DOE Order 451.1A), I have made the following determination:

CX, EA, EIS APPENDIX AND NUMBER:

Description:

B5.1 Actions to conserve energy, demonstrate potential energy conservation, and promote energy-efficiency that do not increase the indoor concentrations of potentially harmful substances. These actions may involve financial and technical assistance to individuals (such as builders, owners, consultants, designers), organizations (such as utilities), and state and local governments. Covered actions include, but are not limited to: programmed lowering of thermostat settings, placement of timers on hot water heaters, installation of solar hot water systems, installation of efficient lighting, improvements in generator efficiency and appliance efficiency ratings, development of energy-efficient manufacturing or industrial practices, and small-scale conservation and renewable energy research and development and pilot projects. The actions could involve building renovations or new structures in commercial, residential, agricultural, or industrial sectors. These actions do not include rulemakings, standard-settings, or proposed DOE legislation.

Rational for determination:

The Illinois Department of Commerce & Economic Opportunity will provide \$5,000,000 in Recovery Act funds to Ingersoll Rand (Rand) as part of Rand's efforts to upgrade its Rockford, Illinois facility. The funds will be used to purchase and install equipment needed to manufacture rotor hubs and carbon fiber spar caps for the wind industry. The project includes upgrading the MasterMill 6.0 gantry milling machine to enable production of 2.5 MW windmill rotor hubs. Equipment includes an air conditioning system for composite production, gantry, rails, and movable cranes. Minor interior upgrades to the existing building are needed to support the project, including running electrical power to the equipment locations. The footprint of the facility will not be impacted. The project will not require new operation permits or updates to existing permits.

Based on the information provided by the State and recipient, the work outlined is consistent with activities identified in Categorical Exclusion B5.1.

NEPA PROVISION

DOE has made a final NEPA determination for this award

Insert the following language in the award:

Note to Specialist :

According to the project officer, funding for this project is \$5,000,000. Unless there is a significant change in scope, a change in funding will not affect my determination.

SIGNATURE OF THIS MEMORANDUM CONSTITUTES A RECORD OF THIS DECISION.
