Based on my review of the information concerning the proposed action, as NEPA Compliance Officer (authorized under DOE Order 451.1A), I have made the following determination:

CX, EA, EIS APPENDIX AND NUMBER:

Description:

A9 Information gathering (including, but not limited to, literature surveys, inventories, audits), data analysis (including computer modeling), document preparation (such as conceptual design or feasibility studies, analytical energy supply and demand studies), and dissemination (including, but not limited to, document mailings, publication, and distribution; and classroom training and informational programs), but not including site characterization or environmental monitoring.

Rational for determination:

Oregon Department of Energy proposes to use federal funds in Christmas Valley to continue efforts in community education and outreach for future renewable energy resource developments and to establish a renewable energy training program for veterans.

This project will include continued education and outreach to include surveys, job training, mitigation demonstration for ecosystem transition, and efforts to reach non-traditional energy communities. This project will also create a hands-on training program for veterans to learn renewable energy and emergency readiness training practices as they return from service overseas.
