**U.S. DEPARTMENT OF ENERGY
EERE PROJECT MANAGEMENT CENTER
NEPA DETERMINATION**

RECIPIENT: North Carolina Department of Commerce, State Energy Office

STATE: NC

PROJECT TITLE : Energy Conservation Programs in Transportation - Town of LaGrange

Funding Opportunity Announcement Number	Procurement Instrument Number	NEPA Control Number	CID Number
	DE-EE0000771	GFO-0000771-015	0

Based on my review of the information concerning the proposed action, as NEPA Compliance Officer (authorized under DOE Order 451.1A), I have made the following determination:

CX, EA, EIS APPENDIX AND NUMBER:

Description:

B5.1 Actions to conserve energy, demonstrate potential energy conservation, and promote energy-efficiency that do not increase the indoor concentrations of potentially harmful substances. These actions may involve financial and technical assistance to individuals (such as builders, owners, consultants, designers), organizations (such as utilities), and state and local governments. Covered actions include, but are not limited to: programmed lowering of thermostat settings, placement of timers on hot water heaters, installation of solar hot water systems, installation of efficient lighting, improvements in generator efficiency and appliance efficiency ratings, development of energy-efficient manufacturing or industrial practices, and small-scale conservation and renewable energy research and development and pilot projects. The actions could involve building renovations or new structures in commercial, residential, agricultural, or industrial sectors. These actions do not include rulemakings, standard-settings, or proposed DOE legislation.

Rational for determination:

The Town of LaGrange in North Carolina proposes to use \$155,475 of EECBG funding to replace 345 high pressure sodium and mercury street lights with 345 energy efficient LED streetlights. By replacing these lights, the Town's savings per year for kWh is approximately 283,311 kWh or \$36,774 per year with the street lights. In addition, there will be an annual savings of \$15,296 in maintenance for a total annual savings of \$52, 070.00.

Old light bulbs will be dealt with according to the recipient's waste stream plan and therefore this project is not expected to have any adverse environmental impact.

Based on the above information this project is categorically excluded from further NEPA review under CX number B 5.1, Actions to Conserve Energy.

NEPA PROVISION

DOE has made a final NEPA determination for this award

Insert the following language in the award:
