**U.S. DEPARTMENT OF ENERGY
EERE PROJECT MANAGEMENT CENTER
NEPA DETERMINATION**

RECIPIENT: City of St. Petersburg

STATE: FL

PROJECT TITLE : Solar in Parks

Funding Opportunity Announcement Number	Procurement Instrument Number	NEPA Control Number	CID Number
81.087	DE-EE0000284	GFO-0000284-002	0

Based on my review of the information concerning the proposed action, as NEPA Compliance Officer (authorized under DOE Order 451.1A), I have made the following determination:

CX, EA, EIS APPENDIX AND NUMBER:

Description:

- A9** Information gathering (including, but not limited to, literature surveys, inventories, audits), data analysis (including computer modeling), document preparation (such as conceptual design or feasibility studies, analytical energy supply and demand studies), and dissemination (including, but not limited to, document mailings, publication, and distribution; and classroom training and informational programs), but not including site characterization or environmental monitoring.
- B3.1** Onsite and offsite site characterization and environmental monitoring, including siting, construction (or modification), operation, and dismantlement or closing (abandonment) of characterization and monitoring devices and siting, construction, and associated operation of a small-scale laboratory building or renovation of a room in an existing building for sample analysis. Activities covered include, but are not limited to, site characterization and environmental monitoring under CERCLA and RCRA. Specific activities include, but are not limited to:

Rational for determination:

The City of St. Petersburg proposes to add an additional location to the original NEPA determination (GFO-10-070) for Photovoltaic installation and the addition of an educational component associated with the PV installation.

This project will include partnering with an educational facility to develop an educational curriculum of EERE technology, installing an educational kiosk, and additional installation of PV.

A kiosk will be implemented to provide the public with the benefits of alternative energy and will be located in an existing building.

The new location of PV installation will be either on the roof or grounds of the Science Center of Pinellas. Until there is a confirmed location of the installation for the PV a NEPA hold will be placed on the project and an additional EF1 will be required upon selection of a site.

This project is comprised of developing an educational program for solar energy; therefore a CX A9 will apply.

NEPA PROVISION

DOE has made a conditional NEPA determination for this award, and funding for certain tasks under this award is contingent upon the final NEPA determination.

Insert the following language in the award:

You are restricted from taking any action using federal funds, which would have an adverse affect on the environment or limit the choice of reasonable alternatives prior to DOE/NNSA providing either a NEPA clearance or a final NEPA decision regarding the project.

Prohibited actions include:

Installation of PV at the Science Center of Pinellas

This restriction does not preclude you from:

Educational curriculum development

Kiosk installation

If you move forward with activities that are not authorized for federal funding by the DOE Contracting Officer in advance of the final NEPA decision, you are doing so at risk of not receiving federal funding and such costs may not be recognized as allowable cost share.

FIELD OFFICE MANAGER DETERMINATION

Field Office Manager review required

NCO REQUESTS THE FIELD OFFICE MANAGER REVIEW FOR THE FOLLOWING REASON:

- Proposed action fits within a categorical exclusion but involves a high profile or controversial issue that warrants Field Office Manager's attention.
- Proposed action falls within an EA or EIS category and therefore requires Field Office Manager's review and determination.

BASED ON MY REVIEW I CONCUR WITH THE DETERMINATION OF THE NCO :
