ATTN OF: KEP-4

SUBJECT: Environmental Clearance Memorandum

TO: Brett Sherer
Project Manager – KEP-4

Proposed Action: Upgrade of secondary containment facilities at Hatwai Substation

Budget Information: Work Order: 00004952

Categorical Exclusion Applied (Appendix B to Subpart D, 10 C.F.R. Part 1021):

B4.6: Additions or modifications to electric power transmission facilities that would not affect the environment beyond the previously developed facility area including, but not limited to: switchyard rock grounding upgrades, secondary containment projects, paving projects, seismic upgrading, tower modifications, changing insulators, and replacement of poles, circuit breakers, conductors, transformers, and crossarms.

Location: Secondary containment systems will be upgraded at Hatwai Substation, Nez Perce County, Idaho. PLS T36N R5W S13, Lat-Long 46 28 12.91N 116 54 32.16W

Proposed by: Bonneville Power Administration (BPA)

Description of the Proposed Action:

BPA proposes to upgrade the secondary containment system at Hatwai Substation for the protection of environmental resources from stormwater runoff and protection of environmental resources. All work will be conducted within the existing facilities, within the existing fill prism of the substation.

Two 8 foot x 16 foot (interior volume) vaults will be installed within the substation, along with associated piping to connect the area of protection to the vaults. This will ensure that any potential leaks would be captured for proper management.

Findings: BPA has determined that the proposed action complies with Section 1021.410 and Appendix B of Subpart D of the Department of Energy's (DOE) National Environmental Policy Act (NEPA) Regulations (57 FR 15144, April 24, 1992, as amended at 61 FR 36221-36243, July 9, 1996; 61 FR 64608, Dec. 6, 1996). The proposed action does not present any extraordinary circumstances that may affect the significance of the environmental effects of the proposal. The proposal is not connected [40 C.F.R. 1508.25(a)(1)] to other action with potentially significant impacts, is not related to other proposed actions with cumulatively significant impact [40 C.F.R. 1508(a)(2)], and is not precluded by 40 C.F.R. 1506.1 or 10 C.F.R. 1021.211.

Moreover, the proposed action would not (i) threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, (ii) require siting and construction or major expansion of waste storage, disposal, recovery, or treatment facilities, (iii)

disturb hazardous substances, pollutants, contaminants, or Comprehensive Environmental Response, Compensation and Liability Act - excluded petroleum and natural gas products that pre-exist in the environment such that there would be uncontrolled or unpermitted release, or (iv) adversely affect environmentally sensitive resources. The proposal will not affect any listed threatened or endangered species, or critical habitat under the Endangered Species Act, or Essential Fish Habitat under the Magnuson-Stevens Fishery Conservation and Management Act, or historic properties under the National Historic Preservation Act.

All proposed actions meet the requirements for the Categorical Exclusion referenced above. We therefore determine that the proposed actions at the nine reviewed Substations may be categorically excluded from further NEPA review and documentation.

Environmental Checklist for Categorical Exclusions

Environmental Checklist for Categorical Exclusions

Name of Proposed Project: 2011 Stormwater Improvement Project at Hatwai Substation

Work Order #: 00004952 **PP&A Project No.:** N/A

Prepared by: Andrew Chang **Routing:** KEP-4 **Date:** 12/29/10

This project has been found to not adversely affect the following environmentally sensitive resources, laws, and regulations:

| Environmental Resources | No Adverse Effect | No Adverse Effect with conditions |
|--|-------------------------------------|---|
| 1. Cultural Resources Work is to be restricted to the existing prism of the facility. Full time COTR will cease operations if potential cultural resources encountered during any portion of work. | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 2. T & E Species, or their habitat(s) All work will be conducted within the substation yards and facilities. No Threatened and Endangered species or their habitat will be affected by these stormwater improvements. | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 3. Floodplains or wetlands | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 4. Areas of special designation | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 5. Health & safety | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 6. Prime agricultural lands | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 7. Special sources of water | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 8. Consistency with state and local laws and regulations | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 9. Pollution control at Federal facilities | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 10. Other | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
