

**ENVIRONMENTAL REVIEW for CATEGORICAL EXCLUSION DETERMINATION
Rocky Mountain Region, Western Area Power Administration**

**Stegall-Gering South Fiber Optic Installation
Scott's Bluff County, Nebraska**

A. Brief Description of Proposal: Western plans to install a fiber optic line on 15.4 miles of the Stegall-Gering South 115Kv transmission line from the Stegall Substation to the Gering Substation. All work is on existing structures within the existing right of way and will require no road maintenance or reconstruction for access. Western will route the fiber optic line underground from pole 0/1 to the Stegall Substation a distance of approximately 35 feet.

B. Number and Title of the Categorical Exclusion Being Applied: (See text in 10 CFR Part 1021, Subpart D.)

B4.7 “Adding fiber optic cable to transmission structures or burying fiber optic cable in existing transmission line rights-of-way.”

C. Regulatory Requirements in 10 CFR 1021.410 (b): (See full text in regulation and attached checklist.)

- 1) The proposed action fits within a class of actions that is listed in Appendix A or B to Subpart D.

For classes of actions listed in Appendix B, the following conditions are integral elements; i.e., to fit within a class, the proposal must not:

- Threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, including DOE and/or Executive Orders;
 - Require siting, construction, or major expansion of waste storage, disposal, recover, or treatment facilities, but may include such categorically excluded facilities;
 - Disturb hazardous substances, pollutants, contaminants, or CERCLA-excluded petroleum and natural gas products that pre-exist in the environment such that there would be uncontrolled or unpermitted releases; or
 - Adversely affect environmentally sensitive resources (including but not limited to those listed in paragraph B. (4)).¹
- 2) There are no extraordinary circumstances related to the proposal that may affect the significance of the environmental effects of the proposal; and
 - 3) The proposal is not “connected” to other actions with potentially significant impacts, is not related to other proposed actions with cumulatively significant impacts, and is not precluded by 40 CFR 1506.1 or 10 CFR 1021.211.

D. Special Stipulations Pertaining to the Proposal:

If the scope of work of this project changes you must contact Western's Environmental Division for additional environmental review.

If any cultural materials are discovered during construction, work in the area shall halt immediately, Western and the Wyoming SHPO staff shall be contacted, and the material be evaluated by an archaeologist or historian meeting the Secretary of the Interior's Professional Qualification Standards (48 FR 22716, Sept. 1983).

This CX is valid for 3 years after the signature date. If construction has not commenced within that time, contact Western's Environmental Division for an updated environmental review prior to construction.

Western will implement standard best management practices for noxious weed control.

E. Determination: Based on my review of information provided to me and in my possession concerning the proposed action, I determined that the proposed action fits within the specified class of actions, the other regulatory requirements set forth above are met, and the proposed action is categorically excluded from requirements for an EA or an EIS.

Shane Collins
NEPA Compliance Officer
Western Area Power Administration

- 1 All reviews and discussions supporting the "not adversely affect" determination have been completed.

ATTACHMENT A
Conditions That Are Integral Elements of the Classes of Action in Appendix B That Apply to This Proposal

Application of Categorical Exclusions (1021.410)	Disagree	Agree	Unknown
1) The proposal fits within a class of actions that is listed in appendix A or B to subpart D.		x	
2) There are no extraordinary circumstances related to the proposal that may affect the significance of the environmental effect of the proposal, (e.g. scientific controversy about environmental effects; uncertain effects or effects involving unique or unknown risks; unresolved conflicts concerning alternate uses of available resources (see NEPA 102(2)(E))		x	
3) The proposal is not connected (40 CFR 1508.25(a)(1) to other actions with potentially significant impacts, is not related to other proposed actions with cumulatively significant impacts (40 CFR 1508.25(a)(2)), and is not precluded by 40 CFR 1506.1 or § 1021.211.		x	
Conditions that are Integral Elements of the Classes of Actions in Appendix B	NO	YES	UNKNOWN
1) Threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety and health, including requirements of DOE and/or Executive Orders ¹ .	x		
2) Require siting and construction or major expansion of waste storage, disposal, recovery, or treatment facilities (including incinerators), but the proposal may include categorically excluded waste storage disposal, recovery, or treatment actions.	x		
3) Disturb hazardous substances, pollutants, contaminants, or CERCLA-excluded petroleum and natural gas products that preexist in the environment such that there would be uncontrolled or intermittent releases; or	x		
4) Adversely affect environmentally sensitive resources. Including but not limited to: <ul style="list-style-type: none"> • Property of historic, archaeological, or architectural significance designated by Federal, state, or local governments or property eligible for listing on the National Register of Historic Places 	x		

<ul style="list-style-type: none"> Federally-listed threatened or endangered species or their habitat (including critical habitat), federally-proposed or candidate species or their habitat, or state-listed endangered or threatened species or their habitat; 	x		
<ul style="list-style-type: none"> Wetlands regulated under the Clean Water Act and Floodplains; 	x		
<ul style="list-style-type: none"> Areas having a special designation such as Federally- and state-designated wilderness areas, national parks, national natural landmarks, wild and scenic rivers, state and Federal wildlife refuges and marine sanctuaries; 	x		
<ul style="list-style-type: none"> Prime agricultural lands; 	x		
<ul style="list-style-type: none"> Special sources of water (such as sole-source aquifers, wellhead protection areas, and other water sources that are vital in a region); and 	x		
<ul style="list-style-type: none"> Tundra, coral reefs, or rain forests. 			

¹Applicable statutory, regulatory, or permit requirements for environment, safety and health, including requirements of DOE and/or Executive Orders (in addition to those listed above)
Complies with Executive Order 13186, Responsibilities of Federal Agencies to Protect Migratory Birds. (January 10, 2001)
Complies with Bald and Golden Eagle Protection Act, 16 U.S.C. 668a-d, as amended.
Complies with Executive Order 11988 Floodplain Management, and Executive Order 11990 Protection of Wetlands.
