

**ENVIRONMENTAL REVIEW for CATEGORICAL EXCLUSION DETERMINATION
Rocky Mountain Region, Western Area Power Administration**

**Upper Molina-Lower Molina 115 kV Road Maintenance and Structure Replacement
Mesa County, CO**

A. Brief Description of Proposal: Montrose maintenance plans to do access road maintenance and structure replacement on the Upper Molina-Lower Molina 115 kV transmission line. This includes approximately 10.4 miles of access road and five structure replacements along 4.6 miles of transmission line corridor. A portion of the structures will be replaced in 2011 and the remaining structures in 2012. All of the structure replacements are on private lands.

B. Number and Title of the Categorical Exclusion Being Applied: (See text in 10 CFR Part 1021, Subpart D.)

B1.3 “Routine maintenance/custodial services for buildings, structures, infrastructures, equipment... (h) Repair of road embankments, (m) repair and maintenance of transmission facilities..., poles...”.

C. Regulatory Requirements in 10 CFR 1021.410 (b): (See full text in regulation and attached checklist.)

- 1) The proposed action fits within a class of actions that is listed in Appendix A or B to Subpart D.

For classes of actions listed in Appendix B, the following conditions are integral elements; i.e., to fit within a class, the proposal must not:

- Threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, including DOE and/or Executive Orders;
 - Require siting, construction, or major expansion of waste storage, disposal, recover, or treatment facilities, but may include such categorically excluded facilities;
 - Disturb hazardous substances, pollutants, contaminants, or CERCLA-excluded petroleum and natural gas products that pre-exist in the environment such that there would be uncontrolled or unpermitted releases; or
 - Adversely affect environmentally sensitive resources (including but not limited to those listed in paragraph B. (4)).¹
- 2) There are no extraordinary circumstances related to the proposal that may affect the significance of the environmental effects of the proposal; and
 - 3) The proposal is not “connected” to other actions with potentially significant impacts, is not related to other proposed actions with cumulatively significant impacts, and is not precluded by 40 CFR 1506.1 or 10 CFR 1021.211.

D. Special Stipulations Pertaining to the Proposal:

If the scope of work of this project changes you must contact Western’s Environmental Division for additional environmental review.

If any cultural or paleontological materials are discovered during construction, work in the area shall halt immediately, Western and the Wyoming SHPO staff shall be contacted, and the material be evaluated by an archaeologist or historian meeting the Secretary of the Interior’s Professional Qualification Standards (48 FR 22716, Sept. 1983).

All equipment used must be cleaned prior to use in the area to prevent transporting of invasive plant or noxious weed seeds.

Construction activities shall be conducted to minimize scarring, or defacing of the natural surroundings in the vicinity of the work.

This CX is valid for 3 years after the signature date. If construction has not commenced within that time, contact Western’s Environmental Division for an updated environmental review prior to construction.

The project must begin after July 30 to avoid Migratory Bird nesting seasons.

E. Determination: Based on my review of information provided to me and in my possession concerning the proposed action, I determined that the proposed action fits within the specified class of actions, the other regulatory requirements set forth above are met, and the proposed action is categorically excluded from requirements for an EA or an EIS.
