EERE PROJECT MANAGEMENT CENTER
NEPA DETERMINATION**

RECIPIENT: Midwest Renewable Energy Association

STATE: WI

PROJECT TITLE : Midwest Provider of Solar Instructor Training

Funding Opportunity Announcement Number	Procurement Instrument Number	NEPA Control Number	CID Number
DE-FOA-0000078	DE-EE0005676	GFO-0005676-001	0

Based on my review of the information concerning the proposed action, as NEPA Compliance Officer (authorized under DOE Order 451.1A), I have made the following determination:

CX, EA, EIS APPENDIX AND NUMBER:

Description:

A9 Information gathering, analysis, and dissemination

Information gathering (including, but not limited to, literature surveys, inventories, site visits, and audits), data analysis (including, but not limited to, computer modeling), document preparation (including, but not limited to, conceptual design, feasibility studies, and analytical energy supply and demand studies), and information dissemination (including, but not limited to, document publication and distribution, and classroom training and informational programs), but not including site characterization or environmental monitoring. (See also B3.1 of appendix B to this subpart.)

A11 Technical advice and assistance to organizations

Technical advice and planning assistance to international, national, state, and local organizations.

Rational for determination:

DOE is proposing to provide federal funding to the Midwest Renewable Energy Association (MREA) to develop a "train-the-trainer" program for solar technologies in a seven state region. DOE funds would be used to hire local coordinators to identify and manage local training networks.

This NEPA determination applies to Phase 1 only. Additional NEPA review will be required if DOE funds will be used for Phase 2.

MREA proposes to develop a collaborative process to train solar instructors. The training would involve co-teaching arrangements for new instructors to gain teaching experience, instructor training courses, resource development groups that bring instructors together to develop classroom resources and an instructor discussion group. Through this process, MREA would refine and expand this training program in partnership with other organizations throughout the Midwest.

Based on this information, DOE has determined the work outlined is consistent with activities identified in categorical exclusion A9 (information gathering) and A11 (technical advice and assistance to organization).
