Based on my review of the information concerning the proposed action, as NEPA Compliance Officer (authorized under DOE Order 451.1A), I have made the following determination:

**CX, EA, EIS APPENDIX AND NUMBER:**

Description:

**B4.13 Upgrading and rebuilding existing powerlines**

Upgrading or rebuilding approximately 20 miles in length or less of existing electric powerlines, which may involve minor relocations of small segments of the powerlines.

**Rational for determination:**

DOE provided EECBG funding to the Florida Energy Office, who is proposing to provide \$1,200,000 to the City of Blountstown, to upgrade 8.15 miles of electrical transmission lines.

The proposed project activities would include replacement of existing poles, insulators, wiring and reinforcement. The proposed improvements would be located adjacent to existing utility lines and all of the work would be conducted on existing right-of-way maintained by the City of Blountstown or the State of Florida. Adverse visual effects are not anticipated as the proposed lines and poles are replacing existing lines and poles.

Based on this information, DOE has determined the work outlined is consistent with activities identified in categorical exclusion B4.13 (upgrading and rebuilding existing power lines).
