Based on my review of the information concerning the proposed action, as NEPA Compliance Officer (authorized under DOE Order 451.1A), I have made the following determination:

**CX, EA, EIS APPENDIX AND NUMBER:**

Description:

**A9 Information gathering, analysis, and dissemination**

Information gathering (including, but not limited to, literature surveys, inventories, site visits, and audits), data analysis (including, but not limited to, computer modeling), document preparation (including, but not limited to, conceptual design, feasibility studies, and analytical energy supply and demand studies), and information dissemination (including, but not limited to, document publication and distribution, and classroom training and informational programs), but not including site characterization or environmental monitoring. (See also B3.1 of appendix B to this subpart.)

## Rational for determination:

DOE proposes to provide funding to DNV Renewables, Inc. to support a computer modeling effort that would predict interactions between off-shore, bottom-fixed wind turbines and surface ice. This project would be conducted as a desk-top investigation including developing information for use in model building, creation of simulation computer codes, and report preparation.

DNV Renewables, Inc. is located at 1809 7th Avenue, Suite 900, Seattle, WA 98101-1330. No construction or ground disturbance would occur as a result of this project. No chemicals or hazardous materials would be utilized.

This project is comprised of off-shore wind technology information gathering, computer simulation code development and dissemination. As such CX A9 applies.
