**U.S. DEPARTMENT OF ENERGY
EERE PROJECT MANAGEMENT CENTER
NEPA DETERMINATION**

RECIPIENT: Louisiana Department of Natural Resources

STATE: LA

PROJECT TITLE : State Energy Program (Formula Grant)

Funding Opportunity Announcement Number	Procurement Instrument Number	NEPA Control Number	CID Number
	NT43198	GFO-0043198-001	

Based on my review of the information concerning the proposed action, as NEPA Compliance Officer (authorized under DOE Order 451.1A), I have made the following determination:

CX, EA, EIS APPENDIX AND NUMBER:

Description:

- A9 Information gathering, analysis, and dissemination** Information gathering (including, but not limited to, literature surveys, inventories, site visits, and audits), data analysis (including, but not limited to, computer modeling), document preparation (including, but not limited to, conceptual design, feasibility studies, and analytical energy supply and demand studies), and information dissemination (including, but not limited to, document publication and distribution, and classroom training and informational programs), but not including site characterization or environmental monitoring. (See also B3.1 of appendix B to this subpart.)
- A11 Technical advice and assistance to organizations** Technical advice and planning assistance to international, national, state, and local organizations.

Rational for determination:

The U.S. Department of Energy (DOE) provided \$547,000 of federal funding to the State of Louisiana Department of Natural Resources (DNR) under the DOE's Annually Appropriated State Energy Program (SEP) for 2012. The DNR will match the federal funding with \$109,400 in state funds. Additionally, the DNR will carry over \$28,248 in Recovery Act SEP funds.

The DNR proposes to fund the following market titles:

Administration and Supervision:

Under this Market Title, federal funding would be used to administer and supervise the State Energy Program.

Revolving Loan Fund:

Under this Market Title, federal funding would continue to be used for a revolving loan fund that would finance cost-effective energy efficiency improvements in private, public, and commercial/industrial facilities. This Market Title has been previously CX'd from further NEPA review. Any projects funded under this Market Title that do not remain within the bounds of DNR's Template for Expedited NEPA Review will be submitted for additional NEPA review.

Based on a review of the activities that would be funded under the above Market Titles, DOE has determined the projects that would be funded under these Market Titles will not significantly impact the human environment and they are categorically excluded from further NEPA review under CX A9 "information gathering" and CX A11 "technical advice." Any activities funded under the 2012 annual appropriations that involve ground-breaking activities, retrofits, or equipment purchase and/or installation are conditioned pending additional NEPA review.
