**U.S. DEPARTMENT OF ENERGY  
EERE PROJECT MANAGEMENT CENTER  
NEPA DETERMINATION**

RECIPIENT: American Samoa Government - TEO

STATE: AS

PROJECT TITLE : State Energy Program - Annual Grant

Funding Opportunity Announcement Number	Procurement Instrument Number	NEPA Control Number	CID Number
DE-FOA-0000643	DE-EE0004509	GFO-0004509-001	GO

Based on my review of the information concerning the proposed action, as NEPA Compliance Officer (authorized under DOE Order 451.1A), I have made the following determination:

**CX, EA, EIS APPENDIX AND NUMBER:**

## Description:

**A9 Information gathering, analysis, and dissemination** Information gathering (including, but not limited to, literature surveys, inventories, site visits, and audits), data analysis (including, but not limited to, computer modeling), document preparation (including, but not limited to, conceptual design, feasibility studies, and analytical energy supply and demand studies), and information dissemination (including, but not limited to, document publication and distribution, and classroom training and informational programs), but not including site characterization or environmental monitoring. (See also B3.1 of appendix B to this subpart.)

**A11 Technical advice and assistance to organizations** Technical advice and planning assistance to international, national, state, and local organizations.

## Rational for determination:

The U.S. Department of Energy (DOE) provided \$142,000 of federal funding to American Samoa (AS) under the DOE's Annually Appropriated State Energy Program (SEP) for 2012. AS will carry over \$49,527.73 in prior SEP funding.

AS proposes to fund the following market titles:

## Administration:

Under this Market Title, AS would use federal funding to administer and supervise its SEP funding.

## Energy Education:

Under this Market Title, AS would use federal funding to publicize, print, and distribute current energy publications and other resource energy efficiency-related materials that promote energy efficiency and renewable energy technologies to target audiences at workshops, schools and organizations.

Based on a review of the activities that would be funded under the above Market Titles, DOE has determined the projects that would be funded under these Market Titles will not significantly impact the human environment and they are categorically excluded from further NEPA review under CX A9 "information gathering" and CX A11 "technical advice." Any activities funded under the 2012 annual appropriations that involve ground-breaking activities, retrofits, or equipment purchase and/or installation are conditioned pending additional NEPA review.
