Proposed Action: Turtle Flats Property Acquisition Funding

Fish and Wildlife Project No.: 2011-003-00, BPA-007521

Categorical Exclusion Applied (from Subpart D, 10 C.F.R. Part 1021): B1.25 Real Property transfers for cultural protection, habitat preservation, and wildlife management.

Location: Cheshire quadrangle, in Lane County, Oregon (near Eugene, Oregon).

Proposed by: Bonneville Power Administration (BPA)

Description of the Proposed Action: BPA proposes to fund the Friends of Buford Park and Mt. Pisgah purchase of the Turtle Flats property, a 63.74-acre parcel of land northwest of Eugene in Lane County, Oregon.

This funding would partially fulfill commitments made in the 2010 “Willamette River Basin Memorandum of Agreement Regarding Wildlife Habitat Protection and Enhancement between the State of Oregon and the Bonneville Power Administration.” This is part of BPA’s ongoing efforts to mitigate for the impacts to fish and wildlife from the construction and operation of federal flood control facilities in the Willamette River Basin. Placing this property in a conservation easement would provide long-lasting wildlife benefits, as part of a growing network of conservation lands in the Willamette Valley, by preventing the conversion of fish and wildlife habitat to other land uses.

The property consists of approximately 63.74 acres of Willamette Valley riparian (near water) habitat. The Friends of Buford Park & Mt. Pisgah would provide long-term stewardship of the land and would develop a management plan to guide the protection and enhancement of habitat and other resources on the property. Before funding any management activities on the property, BPA would conduct further environmental review.

Findings: BPA has determined that the proposed action complies with Section 1021.410 and Appendix B of Subpart D of the Department of Energy’s (DOE) National Environmental Policy Act (NEPA) Regulations (57 FR 15144, Apr. 24, 1992, as amended at 61 FR 36221-36243, July 9, 1996; 61 FR 64608, Dec. 6, 1996, 76 FR 63764, Nov. 14, 2011). The proposed action does not present any extraordinary circumstances that may affect the significance of the environmental effects of the proposal. The proposal is not connected [40 C.F.R. 1508.25(a)(1)] to other actions with potentially significant impacts, has not been segmented to meet the definition of a categorical exclusion, is not related to other proposed actions with cumulatively significant impacts [40 C.F.R. 1508.25(a)(2)], and is not precluded by 40 C.F.R. 1506.1 or 10 C.F.R. 1021.211. Moreover, the proposed action would not (i) threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, (ii) require siting and construction or major expansion of waste storage, disposal, recovery, or treatment facilities, (iii) disturb hazardous substances, pollutants, contaminants, or Comprehensive Environmental

Response, Compensation and Liability Act-excluded petroleum and natural gas products that pre-exist in the environment such that there would be uncontrolled or unpermitted releases, (iv) have the potential to cause significant impacts on environmentally sensitive resources, or (v) involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeds, or invasive species, unless the proposed activity would be contained or confined in a manner designed and operated to prevent unauthorized release into the environment and conducted in accordance with applicable requirements.
