

Categorical Exclusion Determination

Bonneville Power Administration
Department of Energy

Proposed Action: Corkin Substation Land Disposal

Project Manager: Mike Deklyen – TERR-3

Location: Lewis County, Washington

Categorical Exclusion Applied (from Subpart D, 10 C.F.R. Part 1021): B1.24 Property Transfers

Description of the Proposed Action: BPA proposes to dispose of the land rights beneath a portion of the Chehalis Substation complex (known as the Corkin Substation) to Lewis County Public Utility District (PUD). Lewis County owns and operates the equipment on the Corkin Substation site and has requested that BPA dispose of the underlying land rights. The land disposal would satisfy the provisions of BPA's 1996 Policy for Sale or Lease of Delivery Facilities. BPA would dispose of land rights only – the equipment is already owned and operated by Lewis County PUD.

Findings: In accordance with Section 1021.410(b) of the Department of Energy's (DOE) National Environmental Policy Act (NEPA) Regulations (57 FR 15144, Apr. 24, 1992, as amended at 61 FR 36221-36243, July 9, 1996; 61 FR 64608, Dec. 6, 1996, 76 FR 63764, Nov. 14, 2011), BPA has determined that the proposed action:

- (1) fits within a class of actions listed in Appendix B of 10 CFR 1021, Subpart D (see attached Environmental Checklist);
- (2) does not present any extraordinary circumstances that may affect the significance of the environmental effects of the proposal; and
- (3) has not been segmented to meet the definition of a categorical exclusion.

Based on these determinations, BPA finds that the proposed action is categorically excluded from further NEPA review.

Attachment(s): Environmental Checklist

Categorical Exclusion Environmental Checklist

This checklist documents environmental considerations for the proposed project and explains why the project would not have the potential to cause significant impacts on environmentally sensitive resources and would meet other integral elements of the applied categorical exclusion.

Proposed Action: Corkin Substation Land Disposal

Project Site Description

Corkin Substation is located in Lewis County, Washington. The Corkin Substation is adjacent to the BPA Chehalis Substation Maintenance Headquarters and Highway 603. It is surrounded by cleared right-of-way.

Evaluation of Potential Impacts to Environmental Resources

Environmental Resource Impacts	No Potential for Significance	No Potential for Significance, with Conditions
1. Historic and Cultural Resources	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<u>Explanation:</u> The land sale would have no potential to affect historic properties or cultural resources. No consultation required.		
2. Geology and Soils	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<u>Explanation:</u> No ground disturbance proposed.		
3. Plants (including federal/state special-status species)	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<u>Explanation:</u> No disturbance proposed.		
4. Wildlife (including federal/state special-status species and habitats)	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<u>Explanation:</u> No disturbance proposed.		
5. Water Bodies, Floodplains, and Fish (including federal/state special-status species and ESUs)	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<u>Explanation:</u> None present.		

6. **Wetlands**

Explanation: None present.

7. **Groundwater and Aquifers**

Explanation: No ground disturbance proposed.

8. **Land Use and Specially Designated Areas**

Explanation: Land ownership would transfer to Lewis County PUD, but land use would remain unchanged.

9. **Visual Quality**

Explanation: No impact.

10. **Air Quality**

Explanation: No impact.

11. **Noise**

Explanation: No impact.

12. **Human Health and Safety**

Explanation: No impact.

Evaluation of Other Integral Elements

The proposed project would also meet conditions that are integral elements of the categorical exclusion. The project would not:

- Threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, or similar requirements of DOE or Executive Orders.

Explanation, if necessary:

- Require siting and construction or major expansion of waste storage, disposal, recovery, or treatment facilities (including incinerators) that are not otherwise categorically excluded.

Explanation, if necessary:

- Disturb hazardous substances, pollutants, contaminants, or CERCLA excluded petroleum and natural gas products that preexist in the environment such that there would be uncontrolled or unpermitted releases.

Explanation, if necessary:

- Involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeds, or invasive species, unless the proposed activity would be contained or confined in a manner designed and operated to prevent unauthorized release into the environment and conducted in accordance with applicable requirements, such as those of the Department of Agriculture, the Environmental Protection Agency, and the National Institutes of Health.

Explanation, if necessary:

Landowner Notification, Involvement, or Coordination

Description: BPA is conducting this transaction with Lewis County PUD, which owns the Corkin Substation equipment.

Based on the foregoing, this proposed project does not have the potential to cause significant impacts to any environmentally sensitive resource.
