

U.S. Department of Energy Categorical Exclusion Determination Form

Submit by E-mail

Proposed Action Title: Protection and Communication Facilities Maintenance and Minor Additions or Modifications to Existing Infrastructure
2017-2018

Program or Field Office: Western Area Power Administration, Desert Southwest Regional Office

Location(s) (City/County/State): Arizona, Southern Nevada, Southeastern California, Southern Utah

Proposed Action Description:

Western Area Power Administration (WAPA), Desert Southwest Region (DSW), plans to conduct routine and repetitive operations and maintenance actions as well as occasional minor equipment, structure and building additions or modifications at existing communications facilities located in Arizona, southeastern California, southern Nevada, and southern Utah. These facilities may be stand-alone communication sites or part of electrical substations, office complexes or customer facilities. A typical communication facility contains a tower with multiple dishes or antennae, one or two equipment buildings or shelters, a backup generator, a propane tank, and a wave-guide structure. WAPA plans to use existing access roads to reach these facilities. This work is needed to maintain the reliability and safety of the bulk electrical system.

Maintenance actions at Parker Davis Power System communications sites were analyzed in an environmental assessment (DOE/EA-1982) and not included here.

See Attached Continuation Sheet

Categorical Exclusion(s) Applied:

B1.3 - Routine maintenance

For the complete DOE National Environmental Policy Act regulations regarding categorical exclusions, including the full text of each categorical exclusion, see Subpart D of [10 CFR Part 1021](#).

Regulatory Requirements in 10 CFR 1021.410(b): (See full text in regulation)

The proposal fits within a class of actions that is listed in Appendix A or B to 10 CFR Part 1021, Subpart D.

To fit within the classes of actions listed in 10 CFR Part 1021, Subpart D, Appendix B, a proposal must be one that would not: (1) threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, or similar requirements of DOE or Executive Orders; (2) require siting and construction or major expansion of waste storage, disposal, recovery, or treatment facilities (including incinerators), but the proposal may include categorically excluded waste storage, disposal, recovery, or treatment actions or facilities; (3) disturb hazardous substances, pollutants, contaminants, or CERCLA-excluded petroleum and natural gas products that preexist in the environment such that there would be uncontrolled or unpermitted releases; (4) have the potential to cause significant impacts on environmentally sensitive resources, including, but not limited to, those listed in paragraph B(4) of 10 CFR Part 1021, Subpart D, Appendix B; (5) involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeds, or invasive species, unless the proposed activity would be contained or confined in a manner designed and operated to prevent unauthorized release into the environment and conducted in accordance with applicable requirements, such as those listed in paragraph B(5) of 10 CFR Part 1021, Subpart D, Appendix B.

There are no extraordinary circumstances related to the proposal that may affect the significance of the environmental effects of the proposal.

The proposal has not been segmented to meet the definition of a categorical exclusion. This proposal is not connected to other actions with potentially significant impacts (40 CFR 1508.25(a)(1)), is not related to other actions with individually insignificant but cumulatively significant impacts (40 CFR 1508.27(b)(7)), and is not precluded by 40 CFR 1506.1 or 10 CFR 1021.211 concerning limitations on actions during preparation of an environmental impact statement.

Based on my review of the proposed action, as NEPA Compliance Officer (as authorized under DOE Order 451.1B), I have determined that the proposed action fits within the specified class(es) of action, the other regulatory requirements set forth above are met, and the proposed action is hereby categorically excluded from further NEPA review.

NEPA Compliance Officer: 

Date Determined: 5-8-17

Protection and Communication Facilities Maintenance and Minor Additions or Modifications to Existing Infrastructure Continuation Sheet

Project Description (continued)

WAPA includes in this determination maintenance, replacement, removal and/or repair and minor additions or modifications to communication equipment at existing facilities that may include but not be limited to:

1. Maintenance and inspection of microwave towers, dishes, parabolic dishes, and pertinent equipment;
2. Maintenance and inspection of communication towers, antennae, and pertinent equipment;
3. Installation, adjustment or replacement of antennae or dishes on an existing structure;
4. Maintenance and inspection of light beacons in-kind;
5. Adding, modifying, replacing, or removing, radio equipment, panels, wiring, or controls;
6. Maintenance of foundations or footings;
7. Maintenance and inspection of metering, fiber optics, and relaying equipment;
8. Maintenance and inspection of generators, batteries, gauges and propane tanks, including refilling propane tanks;
9. Replacement, recycling and disposal of batteries;
10. Replacement of propane tanks if existing concrete pad is reused;
11. Maintenance and inspection of security equipment;
12. Installation of security equipment on existing buildings or structures;
13. Maintenance, repair or replacement of air-conditioning units provided the Freon is recycled;
14. Maintenance of buildings, including interior and exterior painting;
15. Surveys of buildings and equipment to identify asbestos and lead-based paint.
16. Applications of pesticides and use of traps to control pests such as centipedes, mice, rats, scorpions, and termites in, on, or around communication buildings or equipment.
17. Conducting integrated vegetation management actions to control unwanted plants, such as applying herbicides and using hand tools to cut or pull weeds.

Minor additions are generally those that do not entail constructing or expanding concrete footers, pads, or foundations.

Special Conditions:

Managers implementing actions under this Categorical Exclusion (CX) will contact DSW's Environmental Manager per the attached communication plan. If an action's scope is not listed or dissimilar to ones listed above, or if conditions that are integral elements are not met, then an action-specific NEPA document is needed.

1. This Categorical Exclusion is valid for one year after the signature date or until an updated version is executed, whichever comes first.

2. Ground-disturbing activities are not covered by this Categorical Exclusion and DSW's Environmental Manager must be contacted to review the proposed action prior to work.
3. Requirements for lead-based paint, polychlorinated biphenyl (PCB), asbestos, batteries, and other environmentally regulated materials requirements will be met and DSW's Environmental Manager shall be contacted.
 - a. If insulated wires will be pulled, scraped, or removed, DSW's Environmental Manager will be contacted to determine if asbestos testing is needed. If the insulation contains asbestos, DSW's Environmental Manager will be contact to dispose of it properly.
 - b. If equipment with components containing PCBs or mercury will be removed, DSW's Environmental Manager will be contacted to arrange for disposal.
4. If evidence of a nesting bird is discovered in the work area, work shall cease and DSW's Environmental Manager will be contacted with the location and nature of the findings.
5. If any cultural materials are discovered, work in the area shall halt immediately, DSW Regional Preservation Officer shall be contacted, and the material be evaluated by an archaeologist or historian meeting the Secretary of the Interior's Professional Qualification Standards (48 FR 22716, Sept. 1983).
6. Regarding pesticide and herbicide use:
 - a. WAPA will only use General Use Pesticides; Restricted Use Pesticides will be avoided (see attached lists from Arizona, California and Nevada state agencies).
 - b. Applicators shall obtain the appropriate federal, state, and local certifications and permits.
 - c. To protect non-targeted wildlife, WAPA will avoid products with the following 12 ingredients: aminopyridine (e.g., Avitrol), brodifacoum, chlorophacinone, chloro-p-toludine hydrochloride (e.g., CPTH, DRC-1339, Starlicide), diphacinone, famphur (e.g., Warbex 7), fenthion (e.g., Rid-a-bird), polybutene adhesive (e.g., tanglefoot bird repellent), sodium cyanide, sodium fluoroacetate, strychnine, and zinc phosphide.
 - d. To protect desert tortoise and burrowing owls, WAPA will not use fumigants, such as acrolein, aluminum phosphide, magnesium phosphide, potassium nitrate, sodium nitrate, in burrows.
 - e. WAPA will follow more stringent, site-specific requirements at Mount Lemmon and Tower Mountain facilities due to biological issues.
 - f. WAPA will obtain and follow the conditions associated with Bureau of Land Management or Forest Service issued Pesticide Use Permits. DSW microwave facilities on BLM include: Black Mountain, Black Point Mesa, Christmas Tree Pass, Hualapai Mountain, Newman Peak, Opal, Pete Smith Peak, Telegraph Pass, and White Tank Mountain. DSW microwave facilities on Forest Service include: Elden, Mingus, Mount Lemmon, and Tower Mountain.
7. Regarding non-herbicide, integrated vegetation management work:
 - a. At Hualapai Mountain:

- i. Use hand tools and do not cut plants any lower than 6" tall per Bureau of Land Management's request to minimize soil erosion.
- ii. If possible, schedule work in the fall and winter between 10/1 and 3/31 to avoid impacts to voles and active bird nests.
- iii. If work must occur in the spring or summer between 4/1 and 9/30, a pre-work survey must be conducted and a biological monitor must be present during the work.

CALIFORNIA RESTRICTED MATERIALS REQUIREMENTS

A FEDERAL RESTRICTED USE PESTICIDES

(Included by reference as California Restricted Materials)
Pesticides display the RESTRICTED USE PESTICIDE (RUP) statement on the pesticide container similar to the statement shown here. RUPs require an RUP statement enclosed in a box, at the top of the front panel of the label.

RESTRICTED USE PESTICIDE

DUE TO (reason for restricted use classification)
For retail sale to and use only by Certified Applicators or persons under their direct supervision and only for those uses covered by the Certified Applicator's certification.

Some product labels require a Certified Applicator be "physically present" at the use site.

B CALIFORNIA RESTRICTED MATERIALS

This section is written in a quick reference format; refer to Title 3, California Code of Regulations (3 CCR) section 6400 for complete text.

Acrolein, labeled for use as an aquatic herbicide	Chlorpyrifos, labeled for the production of an agricultural commodity	Metam sodium, labeled for the production of agricultural plant commodities	Potassium n-methyldithiocarbamate (metam-potassium), labeled for the production of agricultural plant commodities
Aldicarb – unregistered	Dazomet, labeled for the production of agricultural plant commodities	Methamidophos – unregistered	Propanil (3,4-dichloropropionanilide)
All dust (except products containing only exempt pesticides)**	Dicamba*	Methidathion	Sodium cyanide
Aluminum phosphide	2,4-dichlorophenoxyacetic acid (2,4-D)*	Methomyl††	Sodium fluoroacetate (compound 1080) – unregistered
Any pesticide containing active ingredients listed under section 6800(a), labeled for agricultural, outdoor institutional, or outdoor industrial use ¹	2,4-dichlorophenoxybutyric acid (2,4-DB)*	Methyl bromide	Sodium tetrathiocarbonate – unregistered
Any pesticide pursuant to Section 18 of FIFRA (Emergency exemption)	2,4-dichlorophenoxypropionic acid (2,4-DP)*	2-methyl-4-chlorophenoxyacetic acid (MCPA)*	Strychnine**
4-Amino pyridine	1,3-Dichloropropene (1,3-D)	Methyl iodide – unregistered	Sulfotepp – unregistered
Azinphos-methyl – unregistered	Difenacoum	Methyl isothiocyanate (MITC), labeled for the production of agricultural plant commodities	Sulfuryl fluoride
Brodifacoum	Difethialone	Mevinphos – unregistered	Thiobencarb
Bromadiolone	Disulfoton** – unregistered	Molinat – unregistered	Tribufos
Calcium cyanide – unregistered	Endosulfan**	Oxydemeton-methyl	Tributyltin, organotin, or a tri-organotin compound formulated as an antifouling paint, coating, or compound and labeled for the control of fouling organisms in an aquatic environment
Carbaryl**†	Ethoprop, labeled for turf	Paraquat	Zinc phosphide**
Carbofuran – unregistered	Fenamiphos – unregistered	Parathion-methyl – unregistered	
Chloropicrin	Lindane** – unregistered	Phorate	
3-Chloro-p-toluidine hydrochloride	Magnesium phosphide	Phosphine gas	

EXCEPTIONS FROM RESTRICTION

** Products labeled only for one or more of the following uses: home use, structural pest control, industrial use, institutional use, public agency vector control district use per Health and Safety Code section 116180.

† Carbaryl formulated as a bait or used directly on livestock or poultry; additional exceptions include those in ** above.

†† Fly baits containing not more than 1% methomyl

* 2,4-D labeled only for use as a plant growth regulator

For 2,4-D; 2,4-DB; 2,4-DP; Dicamba (Phenoxy); MCPA:

* Liquid formulations packaged in containers of 1 quart or less

* Liquid formulations packaged in containers of 1 gallon or less that contain 15% or less of the active ingredient

* Liquid formulations labeled for use without further dilution

* Dry formulations packaged in containers of 1 pound or less. (For dicamba/phenoxy labeled to be further diluted.)

* Dry formulations packaged in containers of 50 pounds or less, containing 10% or less of the active ingredient, and labeled for use without further dilution

APPLICATORS WHO HAVE MET THE CERTIFICATION REQUIREMENTS FOR RESTRICTED MATERIALS PURSUANT TO FOOD AND AGRICULTURAL CODE SECTION 14015

CERTIFIED COMMERCIAL APPLICATORS

(PERSONS OTHER THAN PRIVATE APPLICATORS USING RESTRICTED PESTICIDES)

- Journeyman Pilots
- Qualified Applicator Licensees
- Qualified Applicator Certificate Holders
- Structural Pest Control Field Representatives
- Structural Pest Control Operators
- Vector Control Technicians

A PESTICIDES ONLY IN "A" ABOVE – NO PERMIT REQUIRED

B PESTICIDES IN "B" ABOVE – PERMIT REQUIRED; EXCEPTIONS APPLY

CERTIFIED PRIVATE APPLICATORS

(GROWERS, NURSERYMEN, AND OTHERS USING RESTRICTED PESTICIDES TO PRODUCE AGRICULTURAL COMMODITIES)

- Private Applicator Certificate Holders

A PESTICIDES ONLY IN "A" ABOVE – NO PERMIT REQUIRED

B PESTICIDES IN "B" ABOVE – PERMIT REQUIRED; EXCEPTIONS APPLY

EXCEPTIONS FROM PERMIT REQUIREMENT

- No permit required for pesticides used by persons licensed by the Structural Pest Control Board per Food and Agricultural Code section 14006.6(d).
- No permit required for antifouling paints or coatings containing tributyltin per 3 CCR section 6414(c).
- ¹No permit required for certified applicators using pesticides listed in 3 CCR section 6800(a) (*Potential to Pollute Ground Water*) outside of a Ground Water Protection Area: Atrazine Bentazon (Basagran®) Bromacil Diuron Norflurazon Prometon Simazine
