

# LLNL CATEGORICAL EXCLUSION DETERMINATION FORM

<b>ESPM Log No:</b> 17-15070	<b>NNSA/LFO Log No:</b> NA-17-08
<b>1. PROJECT/ACTIVITY TITLE:</b> Building 363 deconstruction, demolition and site restoration	<b>DATE:</b> December 2017
<b>2. PROJECT DESCRIPTION:</b>  Implementation of the Proposed Project would reduce the risks associated with the Building 363 while making that area available for redevelopment. DOE/NNSA needs to reduce the risks and costs of maintaining legacy and unused structures.  The project would involve deconstruction and demolition of Building 363 a 1,584-square foot facility in the Building 361 complex that is no longer in operation.  The proposed project is anticipated to generate at least one ton of hazardous waste. Deconstruction and demolition activities above and below grade would involve use of heavy equipment such as cranes and dump trucks. Trenching and excavations would be required to remove building components below the ground surface and potentially contaminated soils. Site restoration activities would include use of clean-fill soils, grading, and resurfacing. At the completion of the project, the area would available for redevelopment.	
<b>3. Categorical Exclusion(s) Applied:</b>  B1.23 Demolition and disposal of buildings	

\*-For the complete DOE National Environmental Policy Act regulations regarding categorical exclusions, see Subpart D of 10 CFR 10 21

This action would not: threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, including DOE and/or Executive Orders; require siting, construction, or major expansion of waste storage, disposal, recovery, or treatment facilities, but may include such categorically excluded facilities; disturb hazardous substances, pollutants, contaminants, or CERCLA-excluded petroleum and natural gas products that pre-exist in the environment such that there would be uncontrolled or unpermitted releases; or adversely affect environmentally sensitive resources (including but not limited to those listed in paragraph B.(4)) of Appendix B to Subpart D of 10 CFR 1021). Furthermore, there are no extraordinary circumstances related to this action that may affect the significance of the environmental effects of the action; this action is not "connected" to other actions with potentially significant impacts, is not related to other proposed actions with cumulatively significant impacts, and is not precluded by 40 CFR 1506.1 or 10 CFR 1021.211.

Based on my review of information conveyed to me and in my possession (or attached) concerning the proposed action, as NEPA Compliance Officer (as authorized under DOE Order 451.1B), I have determined that the proposed action fits within the specified class(es) of action, the other regulatory requirements set forth above are met, and the proposed action is hereby categorically excluded from further NEPA review.
