U.S. DEPARTMENT OF ENERGY OFFICE OF ENERGY EFFICIENCY AND RENEWABLE ENERGY NEPA DETERMINATION

RECIPIENT: New Buildings Institute

STATE: OR

PROJECT High Efficiency Electrification Technology Training

Funding Opportunity Announcement Number	Procurement Instrument Number	NEPA Control Number CID Number
DE-FOA-0002196	DE-EE0009747	GFO-0009747-001

Based on my review of the information concerning the proposed action, as NEPA Compliance Officer (authorized under DOE Policy 451.1), I have made the following determination:

CX, EA, EIS APPENDIX AND NUMBER:

Description:

· · · · · · · · · · · · · · · · · · ·	Information gathering (including, but not limited to, literature surveys, inventories, site visits, and audits), data analysis (including, but not limited to, computer modeling), document preparation (including, but not limited to, conceptual design, feasibility studies, and analytical energy supply and demand studies), and information dissemination (including, but not limited to, document publication and distribution, and classroom training and informational programs), but not including site characterization or environmental monitoring. (See also B3.1 of
	appendix B to this subpart.)
A11 Technical advice and	Technical advice and planning assistance to international, national, state, and local organizations

assistance to advice and planning assistance to international, national, state, and local organizations. organizations

Rationale for determination:

The U.S. Department of Energy (DOE) is proposing to provide funding to the New Buildings Institute to develop educational resources aimed at target stakeholder groups to advance industry knowledge of the necessary design, installation, operations, and maintenance needs around electrification technologies (i.e. space and water heating). The project would be completed over two Budget Periods (BPs) with a Go/No-Go decision point between each BP. This NEPA determination is applicable to both BPs.

Project participants would work with stakeholders in different jurisdictions to review existing code requirements and identify potential issues in compliance with all-electric technology, including permitting and inspection processes, that may encourage or dissuade the use of all-electric technologies in regulated building loads. In addition, they would review related existing workforce training programs. Lessons learned combined with previous knowledge of issues with design, permitting, and construction of high-performance electric technologies would be used to develop resources and accompanying education modules. Modules would include such information as required physical space, mechanical and electrical technical requirements, current code language citations, periodic testing, and general maintenance information. Modules would be beta tested in engaged jurisdictions and refined based on feedback from beta users.

The proposed project would consist solely of intellectual, academic, and/or analytical activities. All project activities would be conducted from existing offices or computational facilities and use no materials beyond basic office supplies, software, and computer hardware.

NEPA PROVISION

DOE has made a final NEPA determination.

Notes:

Building Technologies Office This NEPA determination does not require a tailored NEPA provision. Review completed by Shaina Aguilar on 8/26/21.

FOR CATEGORICAL EXCLUSION DETERMINATIONS

The proposed action (or the part of the proposal defined in the Rationale above) fits within a class of actions that is listed in https://eere-pmc-hq.ee.doe.gov/GONEPA/ND_form_V2.aspx?key=24475

U.S. DOE: Office of Energy Efficiency and Renewable Energy - Environmental Questionnaire

Appendix A or B to 10 CFR Part 1021, Subpart D. To fit within the classes of actions listed in 10 CFR Part 1021, Subpart D, Appendix B, a proposal must be one that would not: (1) threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, or similar requirements of DOE or Executive Orders; (2) require siting and construction or major expansion of waste storage, disposal, recovery, or treatment facilities (including incinerators), but the proposal may include categorically excluded waste storage, disposal, recovery, or treatment actions or facilities; (3) disturb hazardous substances, pollutants, contaminants, or CERCLA-excluded petroleum and natural gas products that preexist in the environment such that there would be uncontrolled or unpermitted releases; (4) have the potential to cause significant impacts on environmentally sensitive resources, including, but not limited to, those listed in paragraph B(4) of 10 CFR Part 1021, Subpart D, Appendix B; (5) involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeds, or invasive species, unless the proposed activity would be contained or confined in a manner designed and operated to prevent unauthorized release into the environment and conducted in accordance with applicable requirements, such as those listed in paragraph B(5) of 10 CFR Part 1021, Subpart D, Appendix B.

There are no extraordinary circumstances related to the proposed action that may affect the significance of the environmental effects of the proposal.

The proposed action has not been segmented to meet the definition of a categorical exclusion. This proposal is not connected to other actions with potentially significant impacts (40 CFR 1508.25(a)(1)), is not related to other actions with individually insignificant but cumulatively significant impacts (40 CFR 1508.27(b)(7)), and is not precluded by 40 CFR 1506.1 or 10 CFR 1021.211 concerning limitations on actions during preparation of an environmental impact statement.

The proposed action is categorically excluded from further NEPA review.

SIGNATURE OF THIS MEMORANDUM CONSTITUTES A RECORD OF THIS DECISION.
