NEPA DETERMINATION

RECIPIENT:Sungage Financial, Inc.

STATE: MA

PROJECT TITLE : Transforming Residential Solar through Broad Participation by Debt Capital

Funding Opportunity Announcement Number **Procurement Instrument Number** **NEPA Control Number** **CID Number**
DE-EE0000923 DE-EE0006697 GFO-0006697-001

Based on my review of the information concerning the proposed action, as NEPA Compliance Officer (authorized under DOE Order 451.1A), I have made the following determination:

CX, EA, EIS APPENDIX AND NUMBER:

Description:

- A9 Information gathering, analysis, and dissemination** Information gathering (including, but not limited to, literature surveys, inventories, site visits, and audits), data analysis (including, but not limited to, computer modeling), document preparation (including, but not limited to, conceptual design, feasibility studies, and analytical energy supply and demand studies), and information dissemination (including, but not limited to, document publication and distribution, and classroom training and informational programs), but not including site characterization or environmental monitoring. (See also B3.1 of appendix B to this subpart.)
- A11 Technical advice and assistance to organizations** Technical advice and planning assistance to international, national, state, and local organizations.

Rationale for determination:

The U.S. Department of Energy (DOE) is proposing to provide federal funding to Sungage Financial, Inc. to enhance a solar loan origination platform that will allow consumers to quickly and efficiently apply for a loan to help purchase a solar energy system.

The proposed activities include loan product development, web product development, marketing, channel development, and market development related to capital markets. The proposed project would use no physical materials beyond basic office supplies and software.

Based on review of the project information and the above analysis, DOE has determined the proposed project would not have a significant individual or cumulative impact to human health and/or environment. DOE has determined that this project is consistent with actions outlined in DOE categorical exclusions A9 "Information gathering, analysis, and dissemination" and A11 "Technical advice and assistance to organizations" and is therefore categorically excluded from further NEPA review.
