**U.S. DEPARTMENT OF ENERGY
OFFICE OF ENERGY EFFICIENCY AND RENEWABLE ENERGY
NEPA DETERMINATION**

RECIPIENT: PowerScout, Control Number: 1225-1670, Award Number: DE-EE0007182

STATE: CA

PROJECT TITLE: PowerScoutTM, a Cloud-Based Customer Acquisition Platform for Distributed Generation

Funding Opportunity Announcement Number	Procurement Instrument Number	NEPA Control Number	CID Number
FOA 2015 EE0001225	DE-EE0007182	GFO-0007182-001	

Based on my review of the information concerning the proposed action, as NEPA Compliance Officer (authorized under DOE Order 451.1A), I have made the following determination:

CX, EA, EIS APPENDIX AND NUMBER:

Description:

A9 Information gathering, analysis, and dissemination Information gathering (including, but not limited to, literature surveys, inventories, site visits, and audits), data analysis (including, but not limited to, computer modeling), document preparation (including, but not limited to, conceptual design, feasibility studies, and analytical energy supply and demand studies), and information dissemination (including, but not limited to, document publication and distribution, and classroom training and informational programs), but not including site characterization or environmental monitoring. (See also B3.1 of appendix B to this subpart.)

A11 Technical advice and assistance to organizations Technical advice and planning assistance to international, national, state, and local organizations.

Rationale for determination:

The U.S. Department of Energy (DOE) is proposing to provide federal funding to PowerScout to develop the functionalities for PowerScout ConnectTM and PowerScout TargetTM and demonstrate their ability to reduce customer acquisition costs through big-data analytics and easy-to-use, customer-facing software.

The proposed activities would include computer modeling, data science and analysis, website design, and online product development. The proposed project would use no physical materials beyond basic office supplies and hardware. Work for the proposed project would take place at the kWh analytics offices in San Francisco, CA.

Based on review of the project information and the above analysis, DOE has determined the proposed project would not have a significant individual or cumulative impact to human health and/or environment. DOE has determined that this project is consistent with actions outlined in DOE categorical exclusions A9 "Information gathering, analysis, and dissemination" and A11 "Technical advice and assistance to organizations" and is therefore categorically excluded from further NEPA review.

NEPA PROVISION

DOE has made a final NEPA determination for this award

Insert the following language in the award:
