Based on my review of the information concerning the proposed action, as NEPA Compliance Officer (authorized under DOE Order 451.1A), I have made the following determination:

A11 Technical advice and assistance to organizations Technical advice and planning assistance to international, national, state, and local organizations.

Rationale for determination:

The U.S. Department of Energy (DOE) is proposing to provide federal funding to Solar Dynamics LLC to develop the conceptual design for a Dispatchable Solar Power (DSP) Plant and analyze the technical, cost, and commercialization aspects of using Molten-Salt Tower technology.

Activities associated with the proposed project would include preliminary engineering and design tasks, economic and cost analyses, performance calculations, outreach to utilities and other stakeholders, and meetings with vendors. All work would be conducted at the offices of Solar Dynamics LLC in Broomfield, CO and Sargent & Lundy LLC in Chicago, IL. The proposed project would use no physical materials beyond basic office supplies and software.

Based on the review of the proposal, DOE has determined that the proposal fits within the class of action(s) selected above. DOE has also determined that: (1) there are no extraordinary circumstances (as defined by 10 CFR 1021.410 (2)) related to the proposal that may affect the significance of the environmental effects of the proposal; (2) the proposal has not been segmented to meet the definition of a categorical exclusion; and (3) the proposal is not connected to other actions with potentially significant impacts, related to other proposals with cumulatively significant actions, or an improper interim action. This proposal is categorically excluded from further NEPA review.
