

The no-action alternative is for BPA to deny WRE's request that BPA offer contract terms for this interconnection. The scoping process may help identify other alternatives suitable for consideration in the EIS.

Process to Date: WRE has filed an application for a site certificate to construct the Project. Surveys for sensitive plant and wildlife species and cultural resources were initiated in the spring of 2001 and have been ongoing. Scoping will help identify what additional studies will be needed for the Project and the interconnection.

Public Participation and Identification of Environmental Issues: The potential issues of concern identified for most wind projects include visual issues, noise levels, impacts to cultural resources, socio-economic ramifications, effects on rare plant and animal species, and impacts to wildlife, including migratory birds and bats. The joint EIS will assess these potential impacts for the proposed Project, as well as potential environmental impacts from the proposed interconnection. Other issues, identified during scoping, will also be addressed in the EIS.

When completed, a Draft EIS will be circulated for review and comment, and BPA and EFSEC will hold at least one combined public comment meeting for the Draft EIS. BPA and EFSEC will consider and respond in the Final EIS to comments received on the Draft EIS. BPA's subsequent decision will be documented in a Record of Decision.

Issued in Portland, Oregon, on April 13, 2009.

Stephen J. Wright,

Administrator and Chief Executive Officer.

DEPARTMENT OF ENERGY

Bonneville Power Administration

Leaning Juniper II Wind Project

AGENCY: Bonneville Power Administration (BPA), Department of Energy (DOE).

ACTION: Notice of Record of Decision (ROD).

SUMMARY: This notice announces the availability of the ROD to offer contract terms for interconnection of up to 200 megawatts of wind generation from the Iberdrola Renewables, Inc.'s proposed Leaning Juniper II Wind Project into the Federal Columbia River Transmission System. This decision is consistent with and tiered to BPA's Business Plan Final

Environmental Impact Statement (DOE/EIS-0183, June 1995), and the Business Plan Record of Decision (BP ROD, August 15, 1995). The wind project will be interconnected at BPA's Jones Canyon Switching Station (SS), about three miles southwest of Arlington, Gilliam County, Oregon. The Jones Canyon SS will provide the wind project with transmission access to BPA's McNary-Jones Canyon 230-kilovolt transmission line and the Jones Canyon-Santiam 230-kilovolt transmission line.

ADDRESSES: Copies of the ROD and EIS may be obtained by calling BPA's toll-free document request line, 1-800-622-4520. The ROD and EIS Summary are also available on our Web site, <http://www.efw.bpa.gov>.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 459-264]

AmerenUE; Notice of Application for Amendment of License and Soliciting Comments, Motions To Intervene, and Protests

April 14, 2009.

a. *Type of Application:* Non-project use of project lands and waters.

b. *Project Number:* 459-264.

c. *Date Filed:* April 2, 2009.

d. *Applicant:* AmerenUE.

e. *Name of Project:* Osage Hydroelectric Project.

f. *Location:* The proposed non-project use is located at mile marker 25 + 0.7 of Kinchlow Hollow on the Lake of the Ozarks, in Camden County, Missouri.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791a-825r.

h. *Applicant Contact:* Mr. Jeff Green, Shoreline Supervisor, Ameren/UE, P.O. Box 993, Lake Ozark, MO 65049, (573) 365-9214.

i. *FERC Contact:* Any questions on this notice should be addressed to Shana High at (202) 502-8674.

j. *Deadline for filing comments and or motions:* May 15, 2009.

All documents (original and eight copies) should be filed with: Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

The Commission's Rules of Practice and Procedure require all interveners filing documents with the Commission to serve a copy of that document on each person whose name appears on the official service list for the project. Further, if an intervener files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency. A copy of any motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

k. *Description of Request:* Union Electric Company, dba AmerenUE, filed an application seeking Commission authorization to permit three existing docks that were installed in 2006 without proper authorization and agency review. The three docks, which would be permitted to DIM, LLC, serve a multi-family residential development, and accommodate a total of 36 boats. No dredging, fuel dispensing, or sewage pumping facilities were performed or installed, nor are any proposed. This application was filed after consultation with the appropriate agencies.

l. *Locations of the Application:* A copy of the application is available for inspection and reproduction at the Commission's Public Reference Room, located at 888 First Street, NE., Room 2A, Washington, DC 20426, or by calling (202) 502-8371. This filing may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field (P-459) to access the document. You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via e-mail of new filings and issuances related to this or other pending projects. For assistance, call 1-866-208-3372 or e-mail FERCOnlineSupport@ferc.gov, for TTY, call (202) 502-8659. A copy is also available for inspection and reproduction at the address in item (h) above.

m. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

n. *Comments, Protests, or Motions to Intervene:* Anyone may submit
