

DOE

Energy Storage Grand Challenge: Technology Transition Track

Innovation

- Accelerate and expand the innovation pipeline to support U.S. competitiveness
 - Connect lab experts to external partners
 - Lab Partnering Service (LPS)
 - Technology Commercialization Fund (TCF)

Commercialization

- Enable bankable projects via predictable revenue streams
 - Request for Information (RFI) from industry
- Pursue demonstration projects to reduce technology risk for investors
- Increase the leverage of limited government funds to support the U.S. economy
 - Interagency engagement to pursue real world energy storage projects

Market Information

- Provide high-quality market data to improve market efficiency, accelerate deployment, and identify new opportunities
 - Market analysis
