

Princeton Plasma Physics Laboratory

The Princeton Plasma Physics Laboratory (PPPL) is a single-purpose science lab in the national laboratory system, moving to become a multi-purpose program lab, supported by the U.S. Department of Energy through its Office of Science. It is managed by Princeton University and is charged with conducting unclassified research in scientific disciplines.

PPPL seeks participation from suppliers to support infrastructure growth and renovation, by providing suppliers equal opportunity to compete for the Lab's future subcontracts.

**Virtual Industry Day to be held
Oct. 27, from 1 to 4:30 p.m. EST**
