Re: Jordan Cove Energy Project, L.P.
Semi-Annual Report
DOE/FE Order No. 3413, FE Docket No. 12-32-LNG
DOE/FE Order No. 3041, FE Docket No. 11-127-LNG

Dear Sirs and Madams:

In compliance with Ordering Paragraphs M. and I. of the above-referenced Orders 3413 and 3041, respectively, Jordan Cove Energy Project, L.P. (Jordan Cove) submits this semi-annual report on the progress of Jordan Cove's planned LNG terminal and liquefaction facility for the period from October 1, 2013 through March 2014.

In connection with Jordan Cove's Application for Authority to Site, Construct and Operate a Liquefied Natural Gas Export Terminal filed with the Federal Energy Regulatory Commission (FERC) in FERC Docket No. CP13-483-000, Jordan Cove during the October through March period has worked to advance its Application by filing supplemental related information and responses to FERC's various environmental and engineering data requests. Jordan Cove is working diligently to submit to FERC the few items that remain outstanding. Jordan Cove anticipates that FERC Staff will issue a Draft Environmental Impact Statement in early May 2014.

With respect to commercial arrangements, Jordan Cove has entered into non-binding Heads of Agreement (HOAs) with a number of large-scale, prospective customers in the Asia Pacific region. These HOAs are for a total capacity exceeding the Jordan Cove terminal capacity. Jordan Cove is engaged in negotiations with these prospective customers and expects to enter

into binding long-term liquefaction tolling agreements with a subset of them for all of the terminal's ratable liquefaction capacity by the end of 2014.

Should you have any questions, please do not hesitate to contact me at (541) 266-7510.

Sincerely,

A handwritten signature in black ink that reads "Robert L. Braddock". The signature is written in a cursive, flowing style.
