**Re: Emera CNG LLC, DOE/FE Docket No. 13-157-CNG
Semi-Annual Report**

Dear Ms. Moore:

Pursuant to Ordering Paragraph G. of DOE/FE Order No. 3447, Emera CNG, LLC (“Emera”) hereby submits its semi-annual report, for period April 1, 2015 to September 30, 2015, describing the progress of the proposed CNG compression and loading facility.¹ Development activities are continuing pending the DOE/FE order granting long-term authorization to export compressed natural gas by vessel from a proposed CNG compression and loading facility at the Port of Palm Beach, Florida, to non-free trade agreement nations as requested in Emera’s application². Emera sought and obtained a declaratory order from the Federal Energy Regulatory Commission (“FERC”) that FERC did not have jurisdiction over Emera’s proposed CNG compression and loading facilities³. Accordingly, DOE is proceeding as the lead agency for the *National Environmental Policy Act* review of Emera’s proposed facilities. A notice of availability of the Draft Environmental Assessment was issued by DOE on February 13, 2015 and the public comment period ended on March 18, 2015.

Please contact me if you have any questions.

Yours truly,

EMERA CNG, LLC

Dan Muldoon
President
