

AGENDA

- What is RAMP?
- Who is involved with RAMP?
- Why was RAMP needed?
- What are the goals of RAMP?
- What is the current status of RAMP?

RURAL ALASKA MAINTENANCE PARTNERSHIP

“To create a self-sustaining facility operations and maintenance system that develops the capacity of rural Alaskans to operate and maintain their infrastructure in a manner that protects and enhances the health, safety and sustainability of rural communities and their residents.”

**Rural Alaska
Maintenance
Partnership
(RAMP)**

Economic Development

To develop a regionally supported enterprise for the purpose of coordinating facility maintenance. This enterprise would recruit, hire and train workers to conduct routine maintenance for private and public buildings in a particular region.

Workforce Development

To develop a statewide standard certification for facility maintenance operators, recognizing and acknowledging the importance of this occupation and instituting common ground (competencies) across Alaska.

Paradigm

Local, on-site, on-demand, well trained workers hired to protect and maintain all local buildings and improve energy efficiencies resulting in cost savings for communities and building owners.

Who Is Breaking Ground for a Solution? The Rural Alaska Maintenance Partnership (RAMP)

Denali Commission, Alaska Housing Finance Corporation, Alaska Energy Authority, Alaska Native Tribal Health Consortium, Alaska Village Electric Cooperative, AVTEC, Alaska Department of Labor, Alaska Department of Transportation and Public Facilities, Alaska Works Partnership, Yuut Elitnaurviat, Association of Alaska Housing Authorities, Aleutian Housing Authority, RurAL Cap, Savec, AVCP, and many other entities

Billions of dollars worth of critical infrastructure have been built by various agencies in rural Alaska.

Varying Levels of Preventative Maintenance – if any

New Technology

Replaces the Old

New Building Technology is Complicated and Complex

Goals

- Create stable and sustainable rural communities
- Build a competent workforce
- Create meaningful Jobs (good pay, benefits, hours)
- Reduce Owner Costs (energy, operating and replacement)
- Facilities to reach their anticipated life expectancy

Creating meaningful jobs in workers home Communities

Keeping future generations closer to home with quality facilities and meaningful jobs

STATUS UPDATE:

- Established RAMP committees
- Denali Commission Contracted with Three Star Enterprises to:
 - Confirm planning team (RAMP-T) & facilitate monthly meetings
 - Develop RAMP website (alaskafacilitymaintenance.org)
 - Develop DACUM for Facility Maintenance Technician Certification

DACUM Storyboard

NEXT STEPS:

- ⦿ Established RAMP committees
- ⦿ Three Star Enterprises to
 - Further develop DACUM for Facility Maintenance Technician Certification
 - Analyze existing state and national programs
- ⦿ Conduct feasibility/business plan for Business side
- ⦿ Build statewide understanding and alliance
