

# Power Delivery Subcommittee

- ▶ Reviewing the Transmission/ Distribution Interface in view of ongoing technology and economic changes likely to impact the relationship between Transmission and Distribution providers. Particularly in regions which they have been unbundled from formally vertically integrated utilities.
- ▶ Working to understand how different regions are dealing with increasing penetrations of Distributed Energy Resources.
- ▶ Heather Sanders has agreed to serve as vice-chair of the Subcommittee and lead the Transmission/Distribution Interface work product development.

# Power Delivery Subcommittee

- ▶ Plan is to conduct phone interviews similar to the work of the Storage Subcommittee.
- ▶ Yesterday's panel was the first step of the learning process.
- ▶ Preliminary work product targets are:
  - ▶ June 2017: Developed Questions and Target Interviewees
  - ▶ September 2017: Completed interviews, aggregated data and developed report outline
  - ▶ March 2018: Present work product to full EAC for approval
