Re: *Jordan Cove Energy Project, L.P.*, DOE/FE Docket Nos. 12-32-LNG, 11-127-LNG  
Semi-Annual Report

Dear Ms. Moore:

Pursuant to Ordering Paragraph M of DOE/FE Order No. 3413 and Ordering Paragraph I of DOE/FE Order No. 3041, Jordan Cove Energy Project L.P. (“JCEP”) hereby submits its semi-annual report describing the progress of the proposed liquefaction facility.<sup>1</sup> On December 9, 2016, the Federal Energy Regulatory Commission (“FERC”) issued its Order Denying Rehearing regarding JCEP’s proposed facility and the associated natural gas pipeline.<sup>2</sup> FERC’s order was without prejudice to JCEP submitting a new application. On January 23, 2017, JCEP commenced FERC’s pre-filing review process, which is the first step to submitting a new application to FERC to construct the proposed facility. JCEP continues to pursue other required federal, state, and local permits and authorizations for its facility. JCEP has also continued its negotiations with prospective customers for liquefaction services.

Please contact me if you have any questions.

Respectfully submitted,

/s/ John S. Decker

John S. Decker

*Attorney for Jordan Cove LNG, L.P.*
