Subject: Pieridae Energy (USA) Ltd., FE Docket No. 14-179-LNG
the semi-annual report for the period ending March 31, 2017
filed pursuant to Ordering Paragraph J of DOE/FE Order No. 3639
and pursuant to Ordering Paragraph N of DOE/FE Order No. 3768

Pieridae Energy (USA) Ltd. ("Pieridae US") hereby submits its semi-annual report for the period ending March 31, 2017 (the "Reporting Date") pursuant to Ordering Paragraph J of Order No. 3639 ("Order 3639") issued by the Department of Energy, Office of Fossil Energy ("DOE/FE") on May 22, 2015 in the above-referenced docket, and Ordering Paragraph N of Order No. 3768 ("Order 3768") issued by the DOE/FE on February 5, 2016 in the above-referenced docket, granting long-term, multi-contract authorization to export natural gas to Canada and re-export to other free trade agreement nations and to non-free trade agreement nations, respectively. Unless otherwise stipulated herein, capitalized words have the meaning ascribed to them by the Order 3768.

The front end engineering design of the Goldboro LNG Project is complete and the decision of whether the Goldboro LNG Project will consist of one train or two trains will depend in large measure on the degree of success that Pieridae CA achieves in securing long-term supply of natural gas for use as feed stock for a second train and in securing long-term offtake of the LNG produced from a second train.

A positive final investment decision is expected to be made as early as the third quarter of 2017 and, assuming that FID is positive, the Goldboro LNG Project is anticipated to be operational by the end of the second quarter of 2021.

If you have any questions or require any clarification, please contact Mr. Erik Swenson of Norton Rose Fulbright US LLP at 202.662.4555.

Yours truly,

Thomas Dawson
Chief Operating Officer
