

## LLNL CATEGORICAL EXCLUSION DETERMINATION FORM

<b>ESPM LOG NO:</b> 17-15071	<b>NNSA/LFO LOG NO:</b> NA-18-01
<b>1. PROJECT/ACTIVITY TITLE:</b> Trailer Facilities Deconstruction, Demolition, and Site Restoration	<b>DATE:</b> January 2018
<b>2. PROJECT DESCRIPTION:</b>	
<p>DOE/NNSA needs to reduce the risks and costs of maintaining legacy and unused structures. Implementation of the proposed project would reduce the risks associated with trailers that are past their useful life, while making those areas of the Livermore Site available for redevelopment.</p> <p>The proposed project would involve the removal or demolition of over 200,000 square feet of office trailers across multiple fiscal years, as funding is available. As appropriate, trailers would be deconstructed, demolished and disposed of, or removed for offsite recycling in accordance with applicable requirements. Additional or alternate trailers may be included in future as funding allows.</p> <p>The majority of the waste generated during demolition activities would be nonhazardous debris. Deconstruction, demolition and removal activities above and below ground would involve use of heavy equipment such as cranes and dump trucks. Trenching and excavations would be required to remove trailer components below the ground surface including utilities and piping.</p>	
<b>3. Categorical Exclusion(s) Applied:</b>	
B1.23 Demolition and disposal of buildings	

\*-For the complete DOE National Environmental Policy Act regulations regarding categorical exclusions, see Subpart D of 10 CFR 10.21

This action would not: threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, including DOE and/or Executive Orders; require siting, construction, or major expansion of waste storage, disposal, recovery, or treatment facilities, but may include such categorically excluded facilities; disturb hazardous substances, pollutants, contaminants, or CERCLA-excluded petroleum and natural gas products that pre-exist in the environment such that there would be uncontrolled or unpermitted releases; or adversely affect environmentally sensitive resources (including but not limited to those listed in paragraph B.(4)) of Appendix B to Subpart D of 10 CFR 1021). Furthermore, there are no extraordinary circumstances related to this action that may affect the significance of the environmental effects of the action; this action is not "connected" to other actions with potentially significant impacts, is not related to other proposed actions with cumulatively significant impacts, and is not precluded by 40 CFR 1506.1 or 10 CFR 1021.211.

Based on my review of information conveyed to me and in my possession (or attached) concerning the proposed action, as NEPA Compliance Officer (as authorized under DOE Order 451.1B), I have determined that the proposed action fits within the specified class(es) of action, the other regulatory requirements set forth above are met, and the proposed action is hereby categorically excluded from further NEPA review.

NEPA Compliance Officer:

**Daniel A. Culver**
