

Tropical Depression Florence | Report #9

REPORT TIME & DATE: 9:00 AM EDT | Monday, September 17, 2018

INCIDENT START DATE: Thursday, September 13, 2018

PRIMARY LOCATION(S): North Carolina & South Carolina

REPORT DISTRIBUTION: Public

EXECUTIVE SUMMARY

As of Monday morning Tropical Depression Florence eastern portions of Virginia, with maximum sustained winds of 35 MPH and rain bands from Florence have spread across West Virginia, Ohio, and southern Pennsylvania. Florence is expected to begin to turn more northeasterly today, followed by an eastward motion tomorrow.

Electricity Sector Summary

- The following outages have been reported as of 7:00 AM:
 - North Carolina: 485,622 customer outages (9.8%) – Decrease of 26.5% since last report
 - South Carolina: 17,629 customer outages (<1%) – Decrease of 60.5% since last report
 - Virginia: 13,615 customer outages (<1%) – Increase of 360.6% since last report
- Crews across the impacted area performing damage assessments and restorations as weather conditions permit. Utilities are expected to begin to provide initial estimated restoration timelines early this week.
- Fluctuation in the outage numbers is expected and normal during large-scale restoration efforts.
- DOE is working with utilities on access and routing to impacted areas.
- Crews are unable to operate in heavily flooded areas or when wind speeds are over 30 MPH.

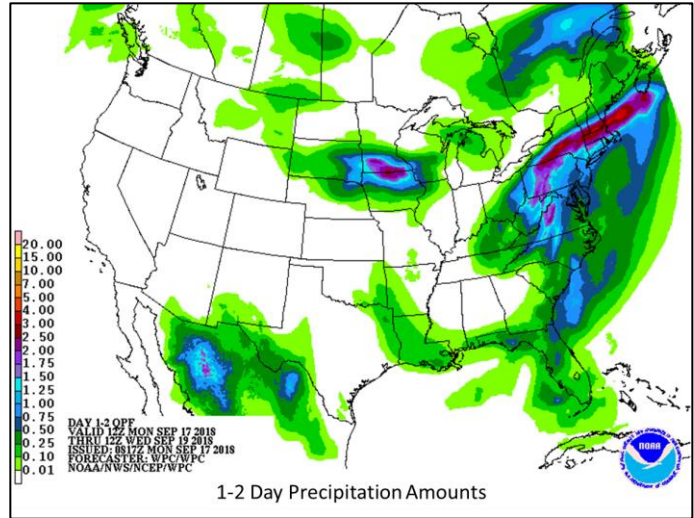

Oil & Natural Gas Sector Summary

- No pipeline disruptions have been reported.
- All ports have reopened expect Wilmington, North Carolina.
- Gasoline inventories at terminals and pipelines in the Lower Atlantic region were 10% above the 5-year average as of September 7.
- Coastal areas impacted by Florence in North and South Carolina are experiencing widespread outages at retail fuel stations due to power outages and conditions preventing resupply from terminals.
 - States are working with industry to expedite resupply shipments to impacted areas.
 - Resupply shipments to retail stations were suspended during the storm.
- A regional hour-of-service waiver is in effect for the impacted area and surrounding states.

TROPICAL DEPRESSION FLORENCE

As of 5:00 AM EDT, Tropical Depression Florence was 125 miles west-southwest of Roanoke, Virginia, moving north-northeast at 13 MPH, with maximum sustained winds of 35 MPH. Florence is expected to begin to move more northeasterly today, before accelerating and becoming more easterly on Tuesday.

An additional 2 to 4 inches of rain is expected across the Mid-Atlantic States, west of Interstate-95, as well as southern New York and southern New England. Significant river flooding is expected to continue in the Carolinas over the next week. Flood and flash flood warnings are in effect throughout the impacted area.

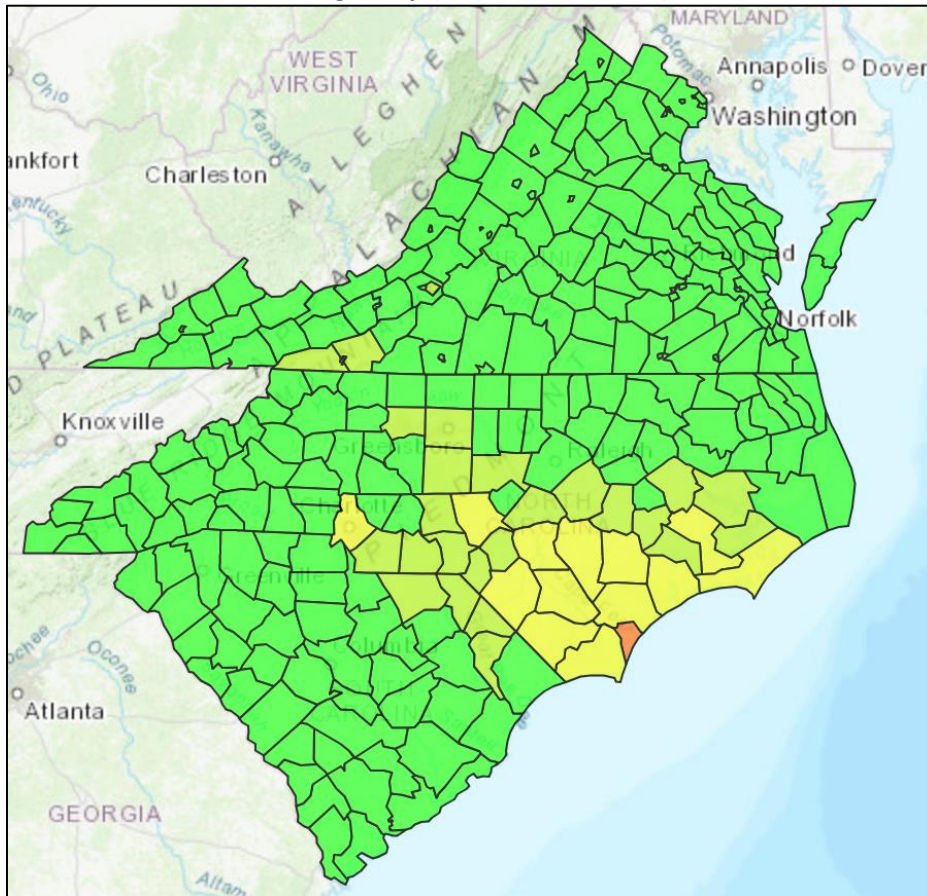

ELECTRICITY SECTOR

POWER OUTAGES

ELECTRICITY OUTAGES AS OF 7:00 AM EDT 09/17/2018			
Impacted State	Current Confirmed Customer Outages	Percent of Total Customers in State without Power	24-Hour Peak Customer Outages
North Carolina	485,622	9.8%	684,392
South Carolina	17,629	<1%	54,653
Virginia	13,615	<1%	13,985
Total	516,866	-	*

*There is no sum of the Peak Customer Outage column because peaks for individual utilities occur at different times; a total would not reflect peak outages.

Outage Map (as of 8:00 AM EDT)

ELECTRICITY IMPACTS & RESTORATION EFFORTS

- Crews across the impacted area have begun to perform damage assessments and restorations as weather conditions permit.
- Fluctuation in the outage numbers is expected and normal during large-scale restoration efforts.
- Duke Energy crews in both North and South Carolina are focusing on critical facilities, as well as power along main roadways, including gas stations, hotels, and grocery stores.
- Utilities reported that significant progress has been made in restoring power to customers in North and South Carolina on Sunday, September 16
 - Flooding may delay efforts to access the hardest hit areas.
 - Electric utilities are working with communication utilities and providers to coordinate restoration efforts.
- Restoration efforts and damage assessments will be limited until the storm has passed and weather conditions permit. Crews are unable to operate in heavily flooded areas and when wind speeds are greater than 30 MPH.

NORTH CAROLINA

485,622 Customer Outages | ↓ **26.5%** since Sep 16, 4:00 PM EDT | **684,392** 24-hr Peak Outages

- **Significantly Impacted Utilities**
 - Duke Energy (Carolinas): 310,469 customer outages
 - Jones Onslow Electric Membership: 40,790 customer outages
 - Lumbee River Electric Membership: 18,984
 - Brunswick Electric Membership: 18,402

SOUTH CAROLINA

17,629 Customer Outages | ↓ **60.5%** since Sep 16, 4:00 PM EDT | **54,653** 24-hr Peak Outages

- **Significantly Impacted Utilities**
 - Duke Energy (Carolinas): 13,373
 - South Carolina Cooperatives: 2,680
 - Santee Cooper: 98

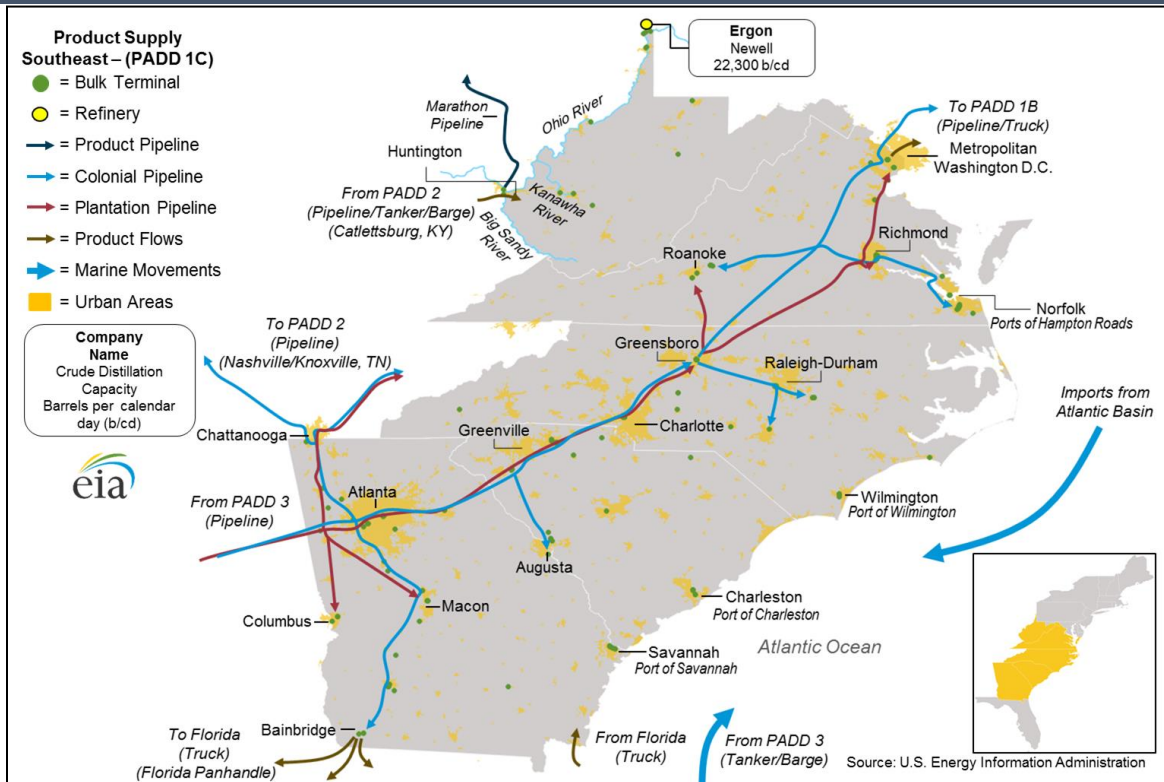

VIRGINIA

13,615 Customer Outages | ↑ **360.6%** since Sep 15, 4:00 PM EDT | **13,985** 24-hr Peak Outages

- **Significantly Impacted Utilities**
 - AEP Appalachian Power: 8,642 customer outages
 - Dominion: 4,456 customer outages
- Utilities in portions of Virginia are continuing to experience new outages as Florence moves across southern portions of the State.

PETROLEUM SECTOR

PRODUCT PIPELINES

- Pipeline operators are following storm procedures.
- No issues have been reported at this time.

PORTS

- The USCG has set the following conditions for Southeast ports.

Status of Southeast Ports as of 7:30 AM EST 09/16/2018				
Port Sector	Port	Status	Date Stamp	2016 Inbound Products (b/d)*
Maryland NCR	Baltimore, MD	Port Condition Normal. Open without restrictions.	09/15	29,000**
	Washington, DC	Port Condition Normal. Open without restrictions.	09/15	2,000
Hampton Roads	Norfolk, VA	Port Condition Normal. Open without restrictions.	09/15	7,000
	Newport News, VA	Port Condition Normal. Open without restrictions.	09/15	3,000
North Carolina	Wilmington, NC	Port Condition Zulu. Port of Wilmington to remain closed until 09/19.	09/16	6,000
Charleston	Charleston, SC	Port Readiness Condition IV. Open without restrictions.	09/16	22,000
Savannah	Savannah, GA	Port Readiness Condition IV. Open without restrictions.	09/15	15,000

*Transportation fuels only (gasoline, distillate, and jet fuel)

**The Port of Baltimore also had 11,000 b/d of petroleum products shipped outbound in 2016.

PETROLEUM REFINERIES

- There are no refineries in the immediate impact zone of Hurricane Florence (NC, SC, GA, VA).

FUEL STOCKS

- For the week ending on September 7, the Lower Atlantic Region (WV, VA, NC, SC, GA, & FL) had 27.9 million barrels of total gasoline stocks, or 10% higher than the 5-year average for this time of year, according to the U.S. Energy Information Administration (EIA). Also, the Lower Atlantic Region had 12.5 million barrels of total distillate stocks, or 5% lower than the 5-year average for this time of year. For these fuels, inventory levels include volumes at refineries, bulk terminals and blenders, and in pipelines. EIA does not survey inventories held at retail stations.

RETAIL FUEL STATIONS

- As of 6:30 AM, September 17, 24% of North Carolina gas stations and 11% of South Carolina gas stations were reported out-of-service due to lack of fuel, lack of power, or both, according to GasBuddy.com. The majority of these outages are located in the coastal areas of Wilmington, Greenville-New Bern, Raleigh-Durham, and Myrtle Beach-Florence.
- States are working closely with industry to expedite resupply shipments to impacted areas.

EMERGENCY DECLARATIONS & WAIVERS

EMERGENCY DECLARATIONS

To provide vital supplies and transportation services to a disaster area in the United States, emergency declarations may be issued by the President, Governors of States, or Federal Motor Carrier Safety Administration (FMCSA). These declarations trigger the temporary suspension of certain Federal safety regulations, including Hours of Service, for motor carriers and drivers engaged in specific aspects of the emergency relief effort. See [49 CFR 390.23](#) for the actual emergency regulation.

State Emergency Declarations and HOS Waivers as of 7:30 AM EST 09/16/2018				
State	Details	Effective Dates		Status
		Start	End	
DE, DC, FL, GA, MD, NJ, NY, NC, PA, SC, VA, WV	FMCSA Regional Declaration of Emergency	09/10	10/10	Active
North Carolina	State of Emergency Declaration	09/07	Until Rescinded	Active
South Carolina	State of Emergency Declaration	09/08	Until Rescinded	Active
Virginia	State of Emergency Declaration	09/08	10/10	Active
Maryland	State of Emergency Declaration	09/10	Until Rescinded	Active
District of Columbia	State of Emergency Declaration	09/11	09/13	Rescinded
Kentucky	State of Emergency Declaration	09/11	10/11	Active
Tennessee	State of Emergency Declaration	09/11	10/11	Active
Georgia	State of Emergency Declaration	09/12	09/19	Active

FUEL WAIVERS

The Environmental Protection Agency (EPA), working with the Department of Energy (DOE), responds quickly to address fuel supply disruptions caused by hurricanes or other natural disasters by issuing emergency waivers of certain fuel standards in affected areas. The table below lists fuel-related waivers issued by the EPA:

Fuel Waivers as of 7:30 AM EST 09/16/2018				
State(s)	Waiver	Effective Dates		Status
		Start	End	
North Carolina, South Carolina	RVP requirements	09/11	09/15	Expired
North Carolina, South Carolina	RFG comingling regulations	09/11	10/01	Active
Georgia, parts of Virginia	RVP requirements	09/12	09/15	Expired
Georgia, parts of Virginia	RVP requirements; amended	09/13	09/15	Expired
Georgia, parts of Virginia	RFG comingling regulations	09/12	09/30	Active
Southern Virginia	RFG requirements	09/12	09/30	Active

Sources: [U.S. Environmental Protection Agency](#); State Governments

Note: RVP waivers were effective through September 15, 2018, which was the end of the high ozone season. The waiver is no longer required.

In order to minimize or prevent the disruption of an adequate supply of gasoline for evacuees in the designated areas, the EPA has issued temporary waivers of:

- Reid vapor pressure (RVP) requirements at 40 C.F.R. § 80.27, thus allowing regulated parties to produce, sell or distribute winter gasoline (including gasoline blendstocks for oxygenate blending (BOBs)) with higher RVP than normally allowed during the high ozone season. On September 13, EPA issued an emergency waiver that amended the September 12 waiver to further increase the allowable RVP for conventional gasoline in Georgia. These waivers were effective through September 15, 2018, which was the end of the high ozone season.
- Reformulated gasoline (RFG) regulations at 40 C.F.R. § 80.78(a)(7), thus allowing the commingling of any RBOB with any other gasoline, blendstock, or oxygenate in the designated areas.
- Reformulated gasoline requirements in Southern Virginia RFG areas, thus allowing regulated parties to produce, sell or distribute conventional winter gasoline instead of RFG in those areas.

OTHER FEDERAL WAIVERS

- On September 13, **PHMSA** issued an Emergency **Stay of Enforcement for pipeline and LNG facility operators** affected by Hurricane Florence. Under the stay, PHMSA does not intend to take enforcement action relating to operators' temporary noncompliance with qualification requirements found in 49 C.F.R. §§ 192.801–192.809 and 195.501–195.509, or pre-employment and random drug testing requirements found in 49 C.F.R. § 199.105(a), (c) arising from the use of personnel for pipeline activities related to response and recovery. The stay will remain in effect until October 28, unless PHMSA determines an extension is required.
- On September 12, **PHMSA** issued a **Waiver of the Hazardous Materials Regulations** (HMR, 49 C.F.R. Parts 171-180) to allow the EPA and USCG to conduct their ESF #10 response activities to safely remove, transport, and dispose of hazardous materials. Persons conducting operations under the direction of EPA Regions 3 or 4 or USCG Fifth or Seventh Districts within the Hurricane Florence emergency areas of South Carolina, North Carolina, and Virginia are authorized to offer and transport non-radioactive hazardous materials under alternative safety requirements imposed by EPA Regions 3 or 4 or USCG Fifth or Seventh Districts when compliance with the HMR is not practicable. Under this Waiver Order, non-radioactive hazardous materials may be transported to staging areas within 50 miles of the point of origin. Further transportation of the hazardous materials from staging areas must be in full compliance with the HMR. This Waiver Order will remain in effect for 30 days from the date of issuance.
- On September 14, **EPA** issued No Action Assurances (NAAs) as requested by North Carolina, South Carolina, Virginia, and Georgia to help avoid delays in fuel distribution. EPA policy allows the Agency to issue NAAs in cases where it is necessary to avoid extreme risks to public health and safety and where no other mechanism can adequately address the matter. Under these NAAs, EPA will **not pursue enforcement actions against tanker trucks under air quality regulations governing the testing for tank tightness and associated documentation.**
- On September 14, **EPA** issued two No Action Assurances (NAAs) as requested by Virginia and North Carolina regarding the loading and unloading of fuel at bulk gasoline terminals, pipeline breakout stations, marine tank vessel loading operations, and gasoline loading racks. Pursuant to these NAAs and the conditions contained in them, EPA will **not pursue enforcement actions for violations of the Clean Air Act vapor recovery requirements for these fuel loading and unloading operations** in those states.
