

National Nuclear Security Administration Categorical Exclusion Determination Form

NEPA ID#: NA-19-0006

Proposed Action Title: Financial Assistance to the State of South Carolina Law Enforcement Division (SLED), FY2019-2023

Program or Field Office: NNSA/Office of Material Management and Minimization, NA-23

Location(s) (City/County/State): South Carolina (SC)

Proposed Action Description:

The U.S. Department of Energy (DOE) National Nuclear Security Administration (NNSA) Office of Material Management and Minimization, proposes to provide financial assistance to the State of South Carolina Law Enforcement Division (SLED) to perform armed escort and provide emergency coordination in support of the Department of Energy's shipment of Foreign Research Reactor Spent Nuclear Fuel (FRR SNF) to the Savannah River Site (SRS). SLED would coordinate directly with other essential state law enforcement agencies regarding training for local first responders and monitoring of shipments into and through the state.

The proposed grant would fund the purchase of law enforcement equipment and the associated expenses necessary for effective security response to an incident, should it occur while the shipment is in route to SRS. SLED would control the purchase of equipment and the reimbursement of expenses to other SC law enforcement agencies as appropriate.

Categorical Exclusion(s) Applied:

- A11 Technical Advice and Assistance to Organizations
- A12 Emergency Preparedness Planning
- B1.2 Training Exercises and Simulations
- B1.31 Installation or Relocation of Machinery and Equipment

For the complete DOE National Environmental Policy Act regulations regarding categorical exclusions including the full text of each categorical exclusion, see Subpart D of 10 CFR 1021.

Regulatory Requirements in 10 CFR 1021.410(b): (See full text in regulation)

The proposal fits within a class of actions that is listed in Appendix A or B to 10 CFR Part 1021, Subpart D. To fit within the classes of actions listed in 10 CFR Part 1021, Subpart D, Appendix B, a proposal must be one that would not: (1) threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, or similar requirements of DOE or Executive Orders; (2) require siting and construction or major

expansion of waste storage, disposal, recovery, or treatment facilities (including incinerators), but the proposal may include categorically excluded waste storage, disposal, recovery, or treatment actions or facilities; (3) disturb hazardous substances, pollutants, contaminants, or CERCLA-excluded petroleum and natural gas products that preexist in the environment such that there would be uncontrolled or unpermitted releases; (4) have the potential to cause significant impacts on environmentally sensitive resources, including, but not limited to, those listed in paragraph B(4) of 10 CFR Part 1021, Subpart D, Appendix B; (5) involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeds, or invasive species) unless the proposed activity would be contained or confined in a manner designed and operated to prevent unauthorized release into the environment and conducted in accordance with applicable requirements, such as those of the Department of Agriculture, the Environmental Protection Agency, and the National Institutes of Health.

There are no extraordinary circumstances related to the proposal that may affect the significance of the environmental effects of the proposal.

The proposal has not been segmented to meet the definition of a categorical exclusion. This proposal is not connected to other actions with potentially significant impacts (40 CFR 1508.25(a)(1)), is not related to other actions with individually insignificant but cumulatively significant impacts (40 CFR 1508.27(b)(7)), and is not precluded by 40 CFR 1506.1 or 10 CFR 1021.211 concerning limitations on actions during preparation of an environmental impact statement.

Based on my review of information conveyed to me and in my possession concerning the proposed action, as NEPA Compliance Officer (as authorized under NNSA NAP 451.1 and DOE P 451.1), I have determined that the proposed action fits within the specified class(es) of action and that other-regulatory requirements set forth above are met. Therefore, the application of a categorical exclusion is appropriate.

NEPA Compliance Officer: Amy Miller

Date Determined: 3/22/2019
