FROM: JAY D. GLASCOCK, PROGRAM LEAD, LM-23
DEFENSE-RELATED URANIUM MINES
OFFICE OF LEGACY MANAGEMENT

SUBJECT: U.S. Department of Energy Uranium Leasing Program's
2019 Mitigation Action Plan Activity Summary Report

In accordance with the U.S. Department of Energy (DOE) Office of Legacy Management's (LM) *Uranium Leasing Program Mitigation Action Plan for the Final Uranium Leasing Program Programmatic Environmental Impact Statement DOE/EIS-0472*, November 2014, LM is required to submit an annual summary report of mitigation activities completed by Uranium Leasing Program (ULP) lessees.

This is notification that LM has no mitigation activities to report for calendar year 2019. Although the court-ordered injunction against DOE and the ULP was dissolved March 18, 2019 (effective date), ULP lessees did not submit any mining, exploration, or reclamation plans to LM in 2019. LM is in process of executing new 10-year lease agreements, further enabling current lessees to resume lease-related activities at their discretion.

As defined in the Mitigation Action Plan (MAP), LM will develop a site-specific MAP to define measures to mitigate potential environmental impacts resulting from the lessee's proposed activities. LM did not develop any site-specific MAPs since the lessees did not submit plans in 2019.

As required by the MAP, LM will inform federal, state, and local agencies of this summary. It will also be made available for public review on the DOE ULP website.

Please contact me at (303) 410-4822 or Jay.Glascock@lm.doe.gov, if you have any questions.
