Re: Corpus Christi Liquefaction Stage III, LLC
DOE Semi-Annual Report for Period of March 1, 2020, through August 31, 2020
FE Docket No. 18-78-LNG

Pursuant to Condition J. of the Order issued by the U.S. Department of Energy - Office of Natural Gas Regulatory Activities ("DOE") in FE Docket 18-78-LNG, Corpus Christi Liquefaction Stage III, LLC ("Stage III") is herein filing its semi-annual report describing the progress of the Corpus Christi Liquefaction Stage 3 Project ("Stage 3 Project"). This report includes information on the construction progress of the Stage 3 Project, and the status of the long-term contracts associated with the long-term export of LNG and any long-term supply contracts.

- Please refer to **Attachment A** for the Monthly Reports for construction activities which were submitted to Federal Energy Regulatory Commission under FERC Docket No. CP18-512-000 during the reporting period.
- No new long-term export contract(s) were executed during the period from March 1, 2020, through August 31, 2020.
- No new long-term gas supply contract(s) were executed during the period from March 1, 2020, through August 31, 2020.

Should you have any questions about the instant filing, please feel free to contact the undersigned at (713) 375-5000.

Respectfully,

Karri Mahmoud

1.0 Executive Summary

This report covers activities for the CCL Stage 3 Project during the month of March 2020.

On November 22, 2019, the Federal Energy Regulatory Commission (“FERC” or “Commission”) issued an Order Issuing Authority Under Section 3 and Section 7(c) of the Natural Gas Act (“NGA”) (“Order”) granting the necessary authorization for the construction and operation of an expansion of the Corpus Christi Liquefaction Project (“Project”). On December 20, 2019, CCL Stage III submitted a request to commence early works activities associated with pile testing activities, soil stabilization tests, and testing of dewatering techniques. On January 10, 2020, CCL Stage III received FERC authorization to proceed with early works activities within the Stage 3 LNG Facilities.

2.0 Project Highlights

CCL Stage III conducted cleanup and demobilization from the first of three early works test pad sites.

3.0 Environmental, Safety, and Health Progress

There have been no safety or environmental incidents during this reporting period.

4.0 Schedule

There are no updates to the overall project schedule.
