U.S. DEPARTMENT OF ENERGY'S
CONQUER
THE HILL
ADVENTURER EDITION
PART OF THE CYBERFORCE® PROGRAM

Overview

The CyberForce Program is expanding with new competition offerings for 2021. Adventurer Edition is a virtual, individual mission that will test participants cyber knowledge, skills, and abilities through the use of anomalies. Students will be provided access to the competition files the week prior to the competition start and then have three days to complete as many challenges as they can. The participant with the most points at the end is the Conqueror of the Hill.

Student Benefits

- Targeted training on cybersecurity skill sets that employers are seeking
- Receive a competition proficiency report mapped to the NIST NICE Framework
- Access to information about other cyber training and efforts
- Mentorship from industry and national lab staff
