DOE/FE ORDER NO. 4719

JULY 1, 2021

I. DESCRIPTION OF REQUEST

On June 4, 2021, Pacific Summit Energy LLC (Pacific Summit Energy) filed an application with the Office of Fossil Energy (FE) of the Department of Energy (DOE) under section 3 of the Natural Gas Act (NGA)¹ for blanket authorization to import and export natural gas from and to Canada and Mexico by pipeline, to export liquefied natural gas (LNG) to Canada and Mexico by vessel, and to import LNG from various international sources by vessel, in a combined total volume equivalent to 600 billion cubic feet (Bcf). The applicant requests the authorization be granted for a two-year term beginning on August 1, 2021.² Pacific Summit Energy is a Delaware limited liability company with its principal place of business in Irvine, California.

II. FINDING

The application has been evaluated to determine if the proposed import and export arrangements meet the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under section 3(c), the import and export of natural gas, including LNG, from and to a nation with which there is in effect a free trade agreement requiring national treatment for trade in natural gas and the import of LNG from other international sources are deemed to be consistent with the public interest, and applications for such imports and exports must be granted without modification or delay. The authorization sought by Pacific Summit Energy to import and export natural gas from and to Canada and Mexico, and to export LNG to Canada and Mexico, nations with which a free trade

¹ Authority to regulate the imports and exports of natural gas, including liquefied natural gas, under section 3 of the NGA (15 U.S.C. § 717b) has been delegated to the Assistant Secretary for FE in Redelegation Order No. S4-DEL-FE1-2021 issued on March 25, 2021.

² Pacific Summit Energy's blanket authorization, granted in DOE/FE Order No. 4411, extends through July 31, 2021.

A. Pacific Summit Energy is authorized to import and export natural gas from and to Canada and Mexico, to export LNG to Canada and Mexico, and to import LNG from various international sources, in a combined total volume equivalent to 600 Bcf of natural gas, pursuant to transactions that have terms of not greater than two years. This authorization shall be effective for a two-year term beginning on August 1, 2021, and extending through July 31, 2023.
