TO IMPORT AND EXPORT COMPRESSED NATURAL GAS  
FROM AND TO CANADA

DOE/FECM ORDER NO. 4771

NOVEMBER 23, 2021

## I. DESCRIPTION OF REQUEST

On November 1, 2021, Valence Natural Gas Solutions LLC (Valence Natural Gas Solutions) filed an application with the Office of Fossil Energy and Carbon Management (FECM) of the Department of Energy (DOE) requesting blanket authorization under section 3 of the Natural Gas Act (NGA)<sup>1</sup> for the authority summarized in the list below. The applicant requests the authorization for a two-year term beginning on November 23, 2021.<sup>2</sup> Valence Natural Gas Solutions is a Delaware limited liability company with its principal place of business in Williston, North Dakota.

1. Import compressed natural gas (CNG) from Canada by truck at any point on the border between the United States and Canada
2. Export CNG to Canada by truck at any point on the border between the United States and Canada

Import and export authority was requested for up to a combined total volume equivalent to 1 billion cubic feet (Bcf) of natural gas.

---

1. Authority to regulate the imports and exports of natural gas, including liquefied natural gas, under section 3 of the NGA (15 U.S.C. § 717b) has been delegated to the Assistant Secretary for Fossil Energy in Redelegation Order No. S4-DEL-FE1-2021, issued on March 25, 2021. On July 4, 2021, the Office of Fossil Energy changed its name to the Office of Fossil Energy and Carbon Management.

2. Valence Natural Gas Solutions' blanket authorization, granted in DOE/FE Order Nos. 4432 and 4196-A, extended through September 2, 2021. See E-mail from Michael Wong, Director, Corporate Services, Valence Natural Gas Solutions (Nov. 15, 2021).

## II. **FINDING**

DOE has evaluated the application to determine if the proposed import and/or export arrangements meet the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under NGA section 3(c), imports and exports of natural gas, including liquefied natural gas (LNG), from or to any country with which the United States has entered into a free trade agreement (FTA) requiring national treatment for trade in natural gas and the import of LNG from other international sources are deemed to be consistent with the public interest.<sup>3</sup> DOE must grant such applications without modification or delay.<sup>4</sup> The authorization sought by Valence Natural Gas Solutions meets the NGA section 3(c) criteria, and, therefore, is deemed to be consistent with the public interest.

### **ORDER**
