Subject: [EXTERNAL] Docket No. 21-98-LNG
Date: Friday, December 3, 2021 6:52:45 PM

DoE,

I want to file a motion to oppose this application. The parties filing the application have not submitted the appropriate impact studies conducted by a neutral party appointed by the DoE that indicate the long term impact to the domestic energy market this will create. Also the applicants have not submitted an energy impact study this export will have on the state of Texas. This is critical because our country is in the transition from fossil fuels to green energy, which is going to create supply and price problems already.

Additionally there is no profit statement from the applicants that indicate what they will make on the deal, since the impacts to the environment from the manufacturing of LNG at Freeport, Texas have long term impacts on our country.

Very Respectfully,

Matthew Deinhardt.
