DOCKET NO. 21-135-NG

ORDER GRANTING BLANKET AUTHORIZATION  
TO EXPORT NATURAL GAS TO MEXICO

DOE/FECM ORDER NO. 4777

DECEMBER 22, 2021

## I. DESCRIPTION OF REQUEST

On December 1, 2021, Coahuila Energy (Coahuila) filed an application with the Office of Fossil Energy and Carbon Management (FECM) of the Department of Energy (DOE) requesting blanket authorization under section 3 of the Natural Gas Act (NGA)<sup>1</sup> for the authority summarized in the list below. The applicant requests the authorization for a two-year term beginning on January 1, 2022.<sup>2</sup> Coahuila is a Texas limited liability company with its principal place of business in San Antonio, Texas.

1. Export up to 200 billion cubic feet (Bcf) of natural gas to Mexico by pipeline at any point on the border between the United States and Mexico

## II. FINDING

DOE has evaluated the application to determine if the proposed export arrangement meets the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under NGA section 3(c), imports and exports of natural gas, including liquefied natural gas (LNG), from or to any country with which the United States has entered into a free trade agreement (FTA) requiring national treatment for trade in natural gas and the import of LNG from other international sources are deemed to be consistent with the public interest.<sup>3</sup> DOE must grant such applications without modification or delay.<sup>4</sup> The authorization sought by Coahuila meets the NGA section 3(c) criteria, and, therefore, is deemed to be consistent with the public interest.
