

RECORD OF CATEGORICAL EXCLUSION DETERMINATION

Southwest Power Pool Inc. Docket EA-434-A

PROPOSED ACTION: Southwest Power Pool, Inc. (SPP or Applicant) applied to the United States Department of Energy (DOE) Office of Electricity for an electricity export authorization to export electricity to Canada pursuant to Section 202(e) of the Federal Power Act.¹ SPP is an Arkansas non-profit corporation with its principal place of business in Little Rock, Arkansas. The Applicant represents that it “does not own electric transmission or generation facilities and does not have a retail service area for the sale of electricity.”² SPP proposes to use existing authorized international electric transmission facilities owned by its member, Basin Electric.³

SPP is a regional transmission organization seeking renewal of an export authorization to sell electric energy into Canada for a term of five years. The existing international transmission facilities to be utilized by the Applicant have previously been authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties. The Presidential permit for these facilities was issued by DOE after an appropriate level of NEPA review.

CX TO BE APPLIED: The elements identified above fit within the class listed in Appendix B to Subpart D of Part 1021-Categorical exclusions applicable to specific agency actions. Specifically:

B4.2 Export of electric energy as provided by Section 202(e) of the Federal Power Act over existing transmission systems or using transmission systems that are themselves categorically excluded.

10 C.F.R. Part 1021, App. B to Subpart D, § B4.2.

REGULATORY REQUIREMENT: The proposed action has previously been determined by DOE to not have a significant effect on the human environment either individually or cumulatively. Authorizing the proposed action will not (1) threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, including DOE and/or Executive Orders; (2) require siting of new facilities or expansion of existing facilities; (3) disturb hazardous substances, pollutants, or contaminants; or (4) adversely affect environmentally sensitive resources.

DETERMINATION: Based on my review of the above information concerning the proposed action, as NEPA Compliance Officer (as authorized under DOE Policy 451.1), I have determined that the proposed action fits within the specified class of actions, other regulatory requirements set forth above are met, and the proposed action is hereby categorically excluded from further NEPA review.

Signature: Melissa Pauley
