**Re: Golden Pass LNG Terminal LLC
DOE/FE Order No. 3147, FE Docket No. 12-88-LNG
DOE/FE Order No. 3978, FE Docket No. 12-156-LNG
Golden Pass LNG Export Project
Semi-Annual Report – April 1, 2022**

To: Office of Regulation and International Engagement

In accordance with Ordering Paragraph J of DOE/FE Order No. 3147 issued September 27, 2012, and Ordering Paragraph O of DOE/FE Order No. 3978 issued April 25, 2017 Golden Pass LNG Terminal LLC (“GPLNG”) submits its semi-annual report describing the progress of the GPLNG Export Project at the Golden Pass LNG Terminal due April 1, 2022.

Should you have any questions, please contact Drake Bettis at drake.bettis@goldenpasslng.com or 713-324-6702.

Respectfully submitted,

Golden Pass LNG Terminal LLC

/S/ Sean Ryan

**Golden Pass LNG Terminal LLC
FE Docket Nos. 12-88-LNG & 12-156-LNG
DOE/FE Order Nos. 3147 & 3978
Golden Pass LNG Export Project
Semi-Annual Report
April 1, 2022**

Progress of the Golden Pass Export Project

On July 7, 2014, Golden Pass Products LLC (“GPP”) and Golden Pass Pipeline LLC (“GPPL”) (collectively “Golden Pass”) filed formal applications with the Federal Energy Regulatory Commission (“FERC” or “Commission”) under Section 3 and Section 7 of the Natural Gas Act in Docket Nos. CP14-517-000 and CP14-518-000, respectively, to construct and operate LNG export facilities near Sabine Pass, Texas. On December 21, 2016, the FERC issued an order authorizing Golden Pass’ applications in Docket Nos. CP14-517 and CP14-518. The December 21 Order is subject to 83 environmental conditions as explained in Appendix A of the order. No parties filed for rehearing of this order.

On April 25, 2017, the Department of Energy, Office of Fossil Energy (“DOE/FE”) issued Order No. 3978 granting Golden Pass long-term, multi-contract authorization to export LNG by vessel from the Golden Pass LNG Terminal to non-free trade agreement nations. Sierra Club submitted a Request for Rehearing of the order on May 25, 2017. Golden Pass filed an Answer and Motion for Stay of Sierra Club on June 8, 2017. On March 28, 2018 Golden Pass filed a letter with DOE/FE requesting prompt issuance of an order denying the pending Request for Rehearing. On March 30, 2018, the DOE/FE in Order No. 3978 granted GPP’s Motion for Leave to Answer Sierra Club’s Request for Rehearing and denied Sierra Club’s Request for Rehearing.

Golden Pass submitted copies of the April 22, 2016 Federal Aviation Authority (“FAA”) determinations on October 13, 2016 to the FAA that there would be no hazard to aircraft from the proposed LNG terminal facilities. A request for an extension of the permit submitted to the FAA on September 28, 2017 was subsequently granted on October 5, 2017. Since FAA only allows for one extension, Golden Pass received new determinations on April 22, 2019 from FAA that there would be no hazard to aircraft from the Golden Pass facility.

On February 5, 2019, Golden Pass shareholders publicly announced the signing of an EPC contract for the Golden Pass LNG Export project.

Effective June 18, 2019, GPP was merged with and into Golden Pass LNG Terminal LLC (“GPLNG”). Pursuant to Section 3(a) of the Natural Gas Act (“NGA”), 15 U.S.C. § 717b(a), and Part 590 of the Regulations of the Department of Energy/Office of Fossil Energy (“DOE/FE”), GPP and GPLNG submitted a Statement of Change in Control seeking authorization to restructure ownership of the corporate entity authorized to engage in the exportation from and importation to the United States of liquefied natural gas (“LNG”). As a result of the restructuring, certain authorizations currently held by GPP to export LNG from the United States have been assigned, or transferred by merger to GPLNG.

On May 21, 2020, GPLNG filed an application under Section 3 of the Natural Gas Act and in accordance with Part 153 of the Commission’s regulations to amend its authorization to increase the total LNG production capacity at its three trains to 18.1 mtpa. On January 19, 2021, the Commission granted the requested authorization.

Application to Increase Level of Authorized Quantities under FE12-103-LNG

On August 14, 2020, Golden Pass LNG Terminal LLC (“Golden Pass LNG”) filed an application with the Department of Energy/Office of Fossil Energy (“DOE/FE) under Section 3 of the Natural Gas Act, 15 U.S.C. § 717b, and the DOE regulations, to increase the authorized liquefied natural gas (“LNG”) export quantities previously approved by the Department of Energy/Office of Fossil Energy (“DOE/FE”) in Order No. 3978 Docket No. FE12-156-LNG (non-Free Trade Agreement (“non-FTA”) Countries) and Order No. 3147 in Docket No. FE12-88-LNG (Free Trade Agreement (“FTA”) Countries).

Date GPLNG Export Project is Expected to be Operational

On October 28, 2019, Golden Pass LNG Terminal LLC (GPLNG) filed with the DOE/FE a “Request for Extension of Commencement Deadlines.” The DOE/FE granted the requested extension on March 24, 2020. The amended orders authorize GPLNG to commence commercial export operations no later than September 30, 2025. Subject to final shareholder approvals, GPLNG anticipates becoming operational in 2024.

Construction Progress of LNG Trains

Golden Pass has continued levee construction, piling, foundations, erection of structural steel in the Train 1 main piperack and utilities, and underground piping installation. Construction of permanent buildings, including new Control Buildings, Laboratory, and Emergency Response Buildings is underway. Delivery of vessels, equipment, and pipe continued. Steel erection in Train 2 and Condensate area, as well as delivery and installation of Local Electrical Rooms (LERs) were initiated during the reporting period.

Cedar Port laydown yard in Baytown, TX continues to be utilized for material shipping, receiving, and pre-assembly work. Golden Pass completed first year of monitoring of vegetation growth in JD Murphree Wildlife Management area, planted under Wetlands Compensatory Mitigation Plan.

Status of Long-Term LNG Export Contracts

On February 27, 2019, GPLNG submitted for filing to the Office of Regulation and International Engagement, Office of Fossil Energy, a copy of a long-term sale and purchase agreement entered into by GPP on January 30, 2019 with Ocean LNG Limited.

Status of Long-Term Natural Gas Supply Contracts

Since the last semi-annual report, Golden Pass LNG Terminal LLC (GPLNG) has entered into one long-term gas supply contract on February 15, 2022.
