U.S. Department of Energy

Re: Docket Nos. 11-145-LNG, 11-162-LNG, 14-204-LNG, 15-36-LNG, 15-67-LNG, 15-90-LNG, 21-50-NG, 18-144-LNG, 18-145-LNG, 15-53-LNG, 15-96-LNG, 18-162-LNG, 20-23-LNG, 20-43-NG, 21-83-NG, 20-52-LNG, 20-145-NG and 20-153-LNG

Dear Ms. Sweeney,

Public Citizen, Inc. moves to intervene in the 18 dockets relating to the notice of change in control stemming from Abu Dhabi Investment Authority's acquisition of 10% of the equity of Sempra Infrastructure Partners, LP. Abu Dhabi Investment Authority is a sovereign wealth fund controlled by the foreign government of the United Arab Emirates.

Established in 1971, Public Citizen, Inc. is a national, not-for-profit, non-partisan, research and advocacy organization representing the interests of household consumers. Public Citizen, Inc. is active before the Federal Energy Regulatory Commission promoting just and reasonable rates, and supporting efforts for utilities to be accountable to the public interest. We frequently intervene in U.S. Department of Energy proceedings involving the export of electricity and natural gas. Our Energy Program Director is an expert on energy market regulatory matters, serving on two federal advisory committees of the U.S. Commodity Futures Trading Commission (the Energy and Environmental Markets and Market Risk advisory committees), and is frequently asked by Congress to testify on matters related to natural gas exports. Financial details of our operations are available at our website.¹

¹ www.citizen.org/about/annual-report/

Public Citizen, Inc. is concerned with allowing foreign governments to control equity of companies that export natural gas out of the United States. Unprecedented volumes of natural gas exports are directly causing record high domestic natural gas prices, resulting in tens of millions of American families to endure sustained energy poverty hardship. The role that foreign governments play in foisting such hazards upon U.S. citizens raise questions about whether such exports are in the public interest.

Respectfully submitted,

Tyson Slocum, Energy Program Director
